To Whom It May Concern,

The Arkansas Wheat Promotion Board is pleased to provide this letter in support of the Arkansas Department of Agriculture's request for funding under the America First Trade Promotion Program.

Our board represents wheat producers across Arkansas and invests in research, promotion, and market development to strengthen demand for our industry. Export markets are essential to long-term price stability and growth for our producers, and the proposed Arkansas trade missions to Guatemala, the United Kingdom, Morocco, Israel, and Portugal directly align with our mission.

The strategy to promote Arkansas-origin wheat through targeted buyer engagement and trade missions will help our producers access new markets, expand existing customer relationships, and compete effectively against foreign suppliers. We strongly support this effort and look forward to coordinating with the Department of Agriculture to maximize its impact.

Sincerely,

Tim Smith
Chair
