CATEGORICAL EXCLUSION SUMMARY AND NOTIFICATION

Purpose

This memo documents for the project file the justification for granting a Categorical Exclusion.

Background

The City of Garfield, (Project No. 25-038), is proposing the replacement of 6-inch asbestos cement pipe with 6-inch Class 200 polyvinyl chloride (PVC) pipe along Highway 62, and under a railroad crossing, the 2-inch PVC main on North Wimpy Jones Road will be preplaced with 4-inch PVC. The 2-inch PVC main located downtown will be replaced with 4-inch PVC piping, and the main dead-end runs will be connected with 4-inch PVC to reduce flush occurrences, and a pressure tank with air compression and controls will be added for increased system pressure for Garfield Mountain water customers.

This project qualifies as a CE in that is an action relating to existing infrastructure systems (such as sewer systems; drinking water supply systems; and stormwater systems, including combined sewer overflow systems) that involve minor upgrading, or minor expansion of system capacity or rehabilitation (including functional replacement) of the existing system and system components (such as the sewer collection network and treatment system; the system to collect, treat, store and distribute drinking water; and stormwater systems, including combined sewer overflow systems) or construction of new minor ancillary facilities adjacent to or on the same property as existing facilities. This category does not include actions that: involve new or relocated discharges to surface or ground water; will likely result in the substantial increase in the volume or the loading of pollutant to the receiving water; will provide capacity to serve a population 30% greater than the existing population; are not supported by the state, or other regional growth plan or strategy; or directly or indirectly involve or relate to upgrading or extending infrastructure systems primarily for the purposes of future development.

No extraordinary circumstances found in 40 Code of Federal Regulations (CFR) §6.204 apply to this proposed action.

Key Points

1. Review completed by Keith Sanders
2. Determination by Keith Sanders

Recommendation

The proposed project has been determined to be categorically excluded from the full and substantive environmental review process as part of the Arkansas Natural Resources Commission's State Revolving Fund program. The proposed project meets the requirements for a CE found in 40 CFR Part 6, Subpart B, §6.204 of the Environmental Protection Agency's National Environmental Policy Act Environmental Review Procedures.
