# Lead Service Line Replacement and Integrated Components Eligibility Certification Form

**Water System Name:** _____ **PWS ID:** _____
**Project Contact Name & Title:** _____
**Phone:** _____ **Email:** _____
**Project Name:** _____

☐ **Inventory Project Only**

**Project Description**:

## Section A. Disadvantaged Community Status

**Affordability Percentage for 4,000 Gallons**
**(**as shown on the 2025 Arkansas Water Rates Dashboard:
https://uncsog.shinyapps.io/efc_ratesdashboard_ar/)

Affordability: _____%

☐ Attached: Copy of the dashboard showing the system name and affordability indicator.

If a copy of the dashboard is not attached, explain why.

# Section B. Eligibility of Integrated Components

To qualify under IIJA DWSRF LSLR appropriation, all three conditions below must be satisfied

## Criterion 1: Financial Integration

1. Describe how the integrated components are financially necessary to complete the LSLR project:

2. Explain why the project cannot proceed without replacing these components:

## Criterion 2: Direct Connection

1. Identify integrated component(s) included in the project (e.g., valves, meters, couplings, curb stops):

2. Confirm the component(s) are physically connected to a known or suspected lead service line.
   ☐ Yes ☐ No

   Describe the connection:

## Section C. Legal Opinion Regarding Ability to Finance Work on Privately Owned Lines

Applicants must attach a **legal opinion or attorney's letter** confirming that the water system is legally authorized to obtain a loan or financing to perform replacement work on **privately owned service lines**.

1. ☐ Attached: Legal Opinion signed by Arkansas licensed attorney
2. Name of legal counsel or firm providing the opinion:

3. Summary of the authority cited (optional):

## Section D. Attachments Checklist

☐ Project Priority List Form
☐ Documentation of disadvantaged community status
☐ Map or diagram showing integrated component locations
☐ Detailed LSLR project description
☐ Cost breakdown including integrated components
☐ Legal opinion confirming authority to take a loan for privately owned service line work

---

## Applicant Certification

I certify that the information provided in this form is accurate and that the integrated components included in this project meet all requirements under SDWA Section 1452(d)(3) and the IIJA DWSRF LSLR appropriation. I further certify that the required legal opinion confirming authority to finance work on privately owned service lines is attached.
