List of Tests and Fees **Effective August 1, 2026**

Please scroll to the end of this document for a list of discontinued tests.

A \$4.00 sample accessioning fee will be applied to all submissions. EIA (Coggins) submissions will NOT be charged the accessioning fee.

This document is updated regularly.

Check the REVISION DATE in the lower left corner of this document to ensure you have the most recent version.

Section	Test Name	Applicable Species	Sample Details	Fee Per Test Unless Noted	Turn Around Time (TAT)**	Notes
CHEM	Aflatoxin Screen (Reveal Q+ Test)		Feed sample (100 g)	\$60	7-10 days	
MOD	African Swine Fever Virus qPCR	swine	Whole blood, tonsil, spleen, lymph node, spleen swab, blood swab	\$35	1-3 days	
SER	Anaplasma ELISA	mammals	Serum (1 mL)	\$6/sample up to 10 samples; \$3/sample for each addl sample	Reported on Monday	Performed on Mondays only. Samples must be received by EOB on Friday for results to be reported on Monday.
SER	Avian Encephalomyelitis ELISA	avian	Serum (1 mL)	\$1.75	1-2 days

Section	Test Name	Applicable Species	Sample Details	Fee Per Test Unless Noted	Turn Around Time (TAT)**	Notes
SER	Avian Influenza (AI) AGID (NPIP)	poultry	Serum (1 mL)	\$3.00	1-2 days	Samples must be received by noon on day of testing. Non-negative samples are forwarded to NVSL for confirmation, which will increase TAT.
SER	Avian Influenza (AI) ELISA (NPIP)	poultry	Serum (1 mL)	\$1.25	1-2 days	
MOD	Avian Influenza (AI) Matrix qPCR	Avian	Oropharyngeal swabs (gallinaceous poultry), cloacal swabs (waterfowl, wild birds)	\$35	1-3 days	Notify lab in advance if submitting a large number of samples. Swabs must be submitted in BHI broth. Up to 5 swabs may be pooled in 3.0 mL BHI. Up to 11 swabs may be pooled in 5.5 mL BHI. Please note number of swabs per pool on the broth tube.
MOD	Avian Metapneumovirus (aMPV) Type A qPCR	avian	Tracheal or oropharyngeal swab in BHI (synthetic swab with plastic shaft), fresh trachea	\$35 for first subtype requested, \$15 for each additional subtype	1-3 days	Must use synthetic swab with plastic handle. Up to 5 swabs can be pooled in 3 mL BHI or up to 11 swabs in 5.5 mL BHI. Please note number of swabs per pool on the tube or the submission form.

Section	Test Name	Applicable Species	Sample Details	Fee Per Test Unless Noted	Turn Around Time (TAT)**	Notes
MOD	Avian Metapneumovirus (aMP) Type B qPCR	avian	Tracheal or oropharyngeal swab in BHI (synthetic swab with plastic shaft), fresh trachea	\$35 for first subtype requested, \$15 for each additional subtype	1-3 days	Must use synthetic swab with plastic handle. Up to 5 swabs can be pooled in 3 mL BHI or up to 11 swabs in 5.5 mL BHI. Please note number of swabs per pool on the tube or the submission form.
MOD	Avian Metapneumovirus (aMPV) Type C qPCR	avian	Tracheal or oropharyngeal swab in BHI (synthetic swab with plastic shaft), fresh trachea	\$35 for first subtype requested, \$15 for each additional subtype	1-3 days	Must use synthetic swab with plastic handle. Up to 5 swabs can be pooled in 3 mL BHI or up to 11 swabs in 5.5 mL BHI. Please note number of swabs per pool on the tube or the submission form.
SER	Avian Metapneumovirus (aMPV) ELISA	avian	Serum, 0.5-1 mL	\$3.75	1-3 days	Does not differentiate between serotypes.
MOD	Avian Paramyxovirus Types 1 (Newcastle Disease Virus) Matrix qPCR	avian	Oropharyngeal swabs (gallinaceous poultry), cloacal swabs (waterfowl, wild birds)	\$35	1-3 days	Swabs must be submitted in BHI broth. Up to 5 swabs may be pooled in 3.0 mL BHI. Up to 11 swabs may be pooled in 5.5 mL BHI. Please note number of swabs per pool on the submission form.

Section	Test Name	Applicable Species	Sample Details	Fee Per Test Unless Noted	Turn Around Time (TAT)**	Notes
SER	Brucellosis BAPA (plate agglutination) (B. abortus and B. suis)	bovine and swine ONLY	Serum (1 mL)	\$3.00	1-7 days	See Notes below.
		<u>Federal ID numbers are required for all samples.</u> Federal Brucellosis Chart is required for bovine samples. Samples will not be processed until the relevant chart is received. AR Porcine Serology Chart is required for COMBINED porcine brucellosis and pseudorabies submissions. ** <u>NEW</u>: State Fair Porcine Panel includes Brucellosis and Pseudorabies tests! ** BAPA test is performed Monday through Friday if it is the only test requested. Samples must be received by noon for same-day reporting. If plate agglutination is positive, samples will be sent to NVSL for confirmation. Swine: Samples tested in house. Negative results can be reported. If pseudorabies is also requested, both tests will be run on the next testing day. Samples MUST be received by 8 a.m. on the day of the scheduled testing or they will be held until the next testing day.

Effective August 1, 2026, the following tests will be discontinued:

- Anaplasma Screen
- Fungal Serology Profile AGID
- Fungal Aspergillosis Serology AGID
- Fungal Blastomycosis Serology AGID
- Fungal Coccidioidomycosis Serology AGID
- Fungal Histoplasmosis Serology AGID
- Pullorum Tests (NPIP) (Salmonella enterica Pullorum): Tube Test ONLY
- Canine Distemper Virus IgG and IgM Screen IFA *
- Canine Distemper Virus IgG Vaccine Titer IFA *
- Canine Parvovirus IgG Vaccine Titer IFA *
- *Ehrlichia canis* Screen and Titer *
- Fecal Baermann (lung flukes)
- Fecal Direct Smear
- Fecal Occult Blood
- Giardia Antigen Test
- Heartworm Antigen (canine)
- Heartworm Microfilaria Identification
- Tick Profile Screen
- Rocky Mountain Spotted Fever (RMSF) Screen and Titer
- Urinalysis
- Bile Acid Panel
- Blood Chemistry
- Blood Chemistry Electrolyte Panel
- Blood Chemistry Liver Panel
- Blood Chemistry Mineral Panel
- Blood Chemistry Renal Panel
- Blood Parasite Profile
- Chem-13 Panel Large Animal
- Chem-13 Panel Small Animal
- Chemistry Panel Complete Avian/Reptile
- Chemistry Panel Complete Large Animal
- Chemistry Panel Complete Small Animal
- Complete Blood Count (CBC) Large Animal
- Complete Blood Count (CBC) Small Animal
- Complete Blood Count (CBC) Small Animal with Manual Reticulocyte Count
- Cortisol–ACTH Stimulation Test and Dexamethasone Suppression Test
- Direct Coombs
- *Ehrlichia canis* Screen and Titer
- Phenobarbital
- Progesterone
- Thyroid Panel: Total T4 and Free T4
- Thyroid Free T4
- Thyroid Total T4
- Urine Protein/Creatinine Ratio

* **PCR test available**
