

## INTEROFFICE MEMORANDUM

---

September 13, 2022

**TO:** Master Files

**FROM:** John Fleming, Division Head, Environmental Division 

**SUBJECT:** Job 061754  
FAP NHPP-0076(254)  
Overhead Sign Strs. & Signs Replacement (Central AR) (2021) (S)  
Route I-30, Sections 21-23  
Route I-440, Section 1  
Route I-630, Section 21  
Hot Spring, Saline, and Pulaski Counties  
Tier 1 Categorical Exclusion Re-Evaluation

A Tier 1 Categorical Exclusion (CE) was completed on the subject job on July 29, 2021. Since that time, 12 new overhead signs and 115 new ground signs were added to the project scope. All work will be performed within the existing right of way.

The official species list was obtained through the U.S. Fish and Wildlife Service's Information for Planning and Consultation website and lists the following species as possibly occurring within the project area: Indiana bat (*Myotis sodalis*), northern long-eared bat (*Myotis septentrionalis*), Eastern Black Rail (*Laterallus jamaicensis ssp. jamaicensis*), Red Knot (*Calidris canutus rufa*), Piping Plover (*Charadrius melodus*), Red-Cockaded Woodpecker (*Picoides borealis*), Arkansas Fatmucket (*Lampsilis powellii*), Ouachita Rock Pocketbook (*Arcidens wheeleri*), Pink Mucket (*Lampsilis abrupta*), Rabbitsfoot (*Theliderma cylindrica*), Spectaclecase (*Cumberlandia monodonta*), Winged Mapleleaf (*Quadrula fragosa*), monarch butterfly (*Danaus plexippus*), and Missouri bladderpod (*Physaria filiformis*). It has been determined that the project will have "no effect" on the aforementioned species due to lack of habitat and distance to known populations.

Job 061754  
Tier 1 Categorical Exclusion Re-Evaluation  
Page 2 of 2

The project will have no discharge of dredged or fill material into waters of the U.S.; therefore, a Section 404 permit will not be required.

The project will remain a Tier 1 Categorical Exclusion as described by the ARDOT/FHWA Programmatic Agreement on Categorical Exclusion Documentation and Processing. No additional environmental impacts are anticipated. A public hearing will not be offered for this project.

# INTEROFFICE MEMORANDUM

---

September 8, 2022

**TO:** Environmental Job File

**FROM:** Richard Jenkins, Cultural Resources 

**SUBJECT:** Cultural Resources Clearance Addendum  
Job 061754  
Overhead Sign Strs. & Signs Replacement (2021) (S)  
Routes I-30, I-630, & I-440, Various Sections  
Hot Spring, Pulaski, & Saline Counties

In addition to the previous 24 overhead sign structures and 89 ground mounted main lane signs being replaced or installed on this project, 12 new overhead signs (including four on I-630) and 115 additional ground mounted signs are now proposed. No new right-of-way (ROW) will be acquired.

Records check of previous sites, historic maps, and aerial imagery were not done based on the limited scope of the project. Records check of previous structures were done and found no historic properties within or adjacent to the proposed sign replacement. The highway infrastructure, past projects, and known construction practices were examined to assess previous ground disturbance. This type of undertaking is repetitive in nature and has no potential to cause effects to historic properties. All work will be within the existing ROW, and the limited scope of the project occurs within previously disturbed areas. Therefore, this project requires no Section 106 review under Appendix C, Activity 28, of the 2021 Programmatic Agreement.

**ARDOT ENVIRONMENTAL VERIFICATION CHECKLIST  
FOR CONSIDERATION OF POTENTIAL IMPACTS**

ARDOT Job 061754 FAP NHPP-0076(254)

Job Title Overhead Sign Strs. & Signs Replacement (Central AR) (2021) (S)
