Method of Approval:

The following information must be provided for new laboratories as well as for recertification of laboratories currently on the QPL:

- ACHM mix design experience by the requesting laboratory.
- All equipment information and calibration records for the equipment.
- A current copy of CTTTP Lab Certification or AASHTO re:source accreditation.
- Certified technician names and CTTTP certification numbers.
- Name and location of a 3rd party testing facility if applicable.
- 3rd party laboratories shall be either CTTTP certified or AASHTO re:source accredited.
- An on-site inspection by Materials Division personnel may be performed.
