TSP Plastics Division Winter Haven FL	<u>TSP 150</u> <u>TSP 150</u>

Method of Documentation of Acceptance:

By brand and source.

The markers shall be retroreflectorized in the direction facing traffic and shall be the color required for tape or paint.

Method of Approval:

METHOD OF APPROVAL FOR MATERIALS TO BE ADDED TO THIS QUALIFIED PRODUCTS LIST

- The manufacturer shall submit a sample and product information, including printed instructions for application.
- If the markers meet the performance criteria, a letter and unsigned certification agreement will be sent to the manufacturer. The product will be placed on the QPL upon receipt of the signed certification agreement.
- Destination samples will be taken as deemed necessary by the Materials Engineer to assure compliance with specifications.
- Failure of these samples either in the laboratory or in field applications is sufficient reason to reconsider acceptance of the material. Suspension of further use and/or removal from the QPL may occur until the Materials Engineer determines that the product is in compliance with applicable

Construction Raised Pavement Markers (CRPM)

specifications and requirements.

The manufacturer of privately labeled products must be disclosed.

No information contained in these lists is to be used for promotional purposes.
