Method of Documentation of Acceptance:

By brand and source.

Method of Approval:

Single and double mailbox support systems shall meet the requirements of Arkansas Department of Transportation Standard Drawing MB-1 and meet the criteria of NCHRP Report 350, Test Level 3 or the Manual of Assessing Safety Hardware (MASH), Level 3.

Samples of mailbox support systems submitted for approval shall be accompanied by a detailed drawing of the support system, product literature, and a copy of the FHWA approval letter confirming that the criteria of NCHRP Report 350, Test Level 3, or MASH, Level 3 are met.

All iron and steel material used on Department projects must be in compliance with the "Buy America" requirements and the Department's "Standard Specifications for Highway Construction", Subsection 106.01. This means all manufacturing processes of iron and steel in a product (i.e., smelting/remelting and any subsequent process which alters the steel material's physical form or shape or changes its chemical composition) must occur within the United States to be considered of domestic origin. This includes processes such as rolling, extruding, machining, bending, grinding, drilling and applying coatings. The use of pig iron or processed, pelletized and reduced iron ore manufactured outside of the United States is permitted in the domestic manufacturing process for steel and/or iron

materials. All steel and iron mill test reports must include a certified statement that all manufacturing processes for the iron or steel product occurred in the United States. Each supplier/fabricator of an intermediate product will also certify that the product complies with the "Buy America" requirements.

After approval for inclusion in the Qualified Products List, samples may be taken at random from shipments for testing. Non-conformance of any material will cause the product to be removed from the Qualified Products List.

No information contained in these lists is to be used for promotional purposes.

The manufacturer of privately labeled products must be disclosed.
