INTEROFFICE MEMORANDUM

October 17, 2022

TO: Master Files

FROM: for John Fleming, Division Head, Environmental Division

SUBJECT: 2023 Pavement Preservation Program Projects
Multiple Jobs and FAP Numbers
Various Counties
Tier 1 Categorical Exclusion

After appropriate environmental review, it has been determined that the subject jobs are a Tier 1 Categorical Exclusion as described by the ARDOT/FHWA Programmatic Agreement on Categorical Exclusion Documentation and Processing. A public hearing will not be offered for these projects.

The purpose of these projects is to preserve and rehabilitate the highways. The attached table lists the projects, their locations, and type of work. Project location maps and cultural resources clearances are also attached. Recent funding changes have resulted in changes to the job numbers of the projects included in this Tier 1 CE. The new and previous job numbers are listed in the attached table.

The projecst will not involve relocations, prime farmlands, wetlands, underground storage tanks, hazardous materials, any environmental justice issues, or cultural resources. These projects have been determined to generate minimal air quality impacts for Clean Air Act criteria pollutants and have not been linked with any special mobile source air toxics concerns.

The official species lists obtained through the U.S. Fish and Wildlife Services (USFWS) Information for Planning and Consultation identified the following species as potentially occurring within the project area: gray bat (*Myotis grisescens*), Indiana bat (*Myotis sodalis*), northern long-eared bat (*Myotis septentrionalis*), Ozark big-eared bat (*Corynorhinus townsendii ingens*), Eastern

Black Rail (*Laterallus jamaicensis ssp. jamaicensis*), Ivory-Billed Woodpecker (*Campephilus principalis*), Piping Plover (*Charadrius melodus*), Red Knot (*Calidris canutus rufa*), Red-Cockaded Woodpecker (*Picoides borealis*), Whooping Crane (*Grus americana*), Ozark hellbender (*Cryptobranchus alleganiensis bishopi*), leopard darter (*Percina pantherina*), Ozark cavefish (*Troglichthys rosae*), pallid sturgeon (*Scaphirhynchus albus*), yellowcheek darter (*Etheostoma moorei*), Arkansas Fatmucket (*Lampsilis powellii*), Curtis Pearlymussel (*Epioblasma curtisiil*), Fat Pocketbook (*Potamilus capax*), Lousiana Pearlshell (*Margaritifera hembeli*), Neosho Mucket (*Lampsilis rafinesqueana*), Ouachita Rock Pocketbook (*Arcidens wheeleril*), Pink Mucket (*Lampsilis abrupta*), Rabbitsfoot (*Theliderma cylindrica*), Scaleshell Mussel (*Potamilus leptodon*), Snuffbox Mussel (*Epioblasma triquetra*), Speckled Pocketbook (*Lampsilis streckeri*), Spectalecase (*Cumberlandia monodonta*), Winged Mapleleaf (*Quadrula fragosa*), American burying beetle (*Nicrophorus americanus*), monarch butterfly (*Danaus plexippus*), Benton County cave crayfish (*Cambarus aculabrum*), Hell Creek cave crayfish (*Cambarus zophonastes*), Geocarpon (*Geocarpon minimum*), harperella (*Ptilimnium nodosum*), Missouri bladderpod (*Physaria filiformis*), and pondberry (*Lindera melissifolia*). Utilizing the Arkansas Determination key, it has been determined that these projects will have “no effect” on the aforementioned federally listed species due to the limited scope of the actions, lack of suitable habitat, and distance to known species locations.

These projects will not have a discharge of dredged or fill material into waters of the United States; therefore, Section 404 permits will not be required.

SUBJECT: Cultural Resources Clearance
Job A20018
McGhee – Arkansas City (S)
Route 4, Section 17
Route 169, Section 1
Desha County

This job proposes to make the following improvements to 11.84 miles of Highways 4 and 169: Thinlay on Hwy. 4 and Spot Level & Overlay and adding 2-foot wide shoulders on Hwy. 169. No new right-of-way (ROW) will be acquired.

A standard archeological records review of files at the Arkansas Archeological Survey found several sites (3DE40, 3DE329, 3DE261) documented near the project limits. None of these sites are located within or adjacent to the project and are at least over 200 feet away. A review of the Arkansas Historic Preservation Program property files found that several properties (DE0065, DE0350, DE0304, DE0308) have been documented near the project but are at least 250 feet away. One historic property, DE0306 (Holly Grove Cemetery), is listed on the National Register of Historic Places and is located adjacent to the project. The official NRHP boundary of the cemetery is known and construction activity along it will consist of existing paved surface treatments. The McGehee Cemetery will not be affected by this project. A review of applicable topographic maps identified the McGehee Cemetery located south of Hwy. 4.

The highway infrastructure, known construction practices, and aerial imagery were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. The current

scope of the project occurs within previously disturbed areas. This project is subject to the 2021 Programmatic Agreement and falls under Activity 2 in Appendix C. The project requires no further Section 106 review.

RE: Ashley and Chicot Counties: General
Section 106 Review: FHwA
Proposed Undertaking: Hwy. 165 (S)
Route 8, Sections 15 & 16
ARDOT Job Number: 020779
AHPP Tracking Number: 110215

Dear Mr. Fleming:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the submission for the above-referenced project in Ashley and Chicot Counties, Arkansas. The proposed undertaking entails the 17.47 miles of spot leveling, 1.5-inch overlay, and adding 2-foot shoulders on Highway 8, between Parkdale and Eudora. The proposed project activities are not covered by the existing 2021 Programmatic Agreement and all work will occur inside the existing ARDOT right-of-way.

Three historic properties are located near the area of potential effect (APE): archeological site 3AS0189 and historic structures CH0034 and CH0312. Site 3AS0189 has been previously land leveled and the historic structures are outside the APE.

Based on the provided information, the AHPP concurs with the finding of **no historic properties affected pursuant to 36 CFR § 800.4(d)(1)** for the proposed undertaking.

Tribes that have expressed an interest in the area include the Caddo Nation, the Choctaw Nation of Oklahoma, the Jena Band of Choctaw Indians, the Muscogee (Creek) Nation, the Quapaw Nation, the Shawnee Tribe, the Tunica-Biloxi Tribe of Louisiana, Inc., and the United Keetoowah Band of Cherokee Indians. We recommend consultation in accordance with 36 CFR § 800.2(c)(2).

Thank you for the opportunity to review this undertaking and report. Please refer to the AHPP Tracking Number listed above in all correspondence. If you have any questions, call Kathryn Bryles at 501-324-9784 or email kathryn.bryles@arkansas.gov.

Sincerely,

Kathryn Bryles

INTEROFFICE MEMORANDUM

October 19, 2021

TO: Environmental Job File

FROM: Wm. Lane Shields, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 020722
Hwy. 83 Resurfacing (Sel.Secs.) (Monticello)
Various Routes, Various Sections
Drew County

This project proposes to use 2" overlay or 2" mill and overlay on about 6.57 miles along the above streets in Monticello. Additionally, there will be some interchange improvements at US 425, called 'remove channelization', that will improve geometrics and change some curbs. This work is part of an agreed partnering for Job 020475.

The records review focused on the channelization at Hwy. 425/Hwy. 83 intersection. An archeological and historic records review include the Arkansas Archeological Survey (ARAS) site files and the Arkansas Historic Preservation Program (AHPP) recorded structures. Other background research includes General Land Office plat for Township 13 South, Range 7 West (1840), the 1936 Drew County General Highway and Transportation Map and all 13 versions of USGS topographic quadrangles for the area. All sources were reviewed for cemeteries, potentially historic structures and landforms conducive to hold archeological sites in or near the project.

The ARAS documents no sites or structures within view shed of the corridor. There are no nearby cemeteries. The GLO plat has no cultural or natural features in close proximity of the project. The 1936 highway map shows the eastern road, then AR 13, now AR 83 but not US 425. Rural population density is low and no structures are in the immediate vicinity. The USGS quadrangles do not show structures until the 1966 map, which does not show any buildings nearby.

The road infrastructure, known construction practices, existing utilities and available plans were examined to assess previous ground disturbances. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW and within previously disturbed areas. This job is subject to the 2021 Programmatic Agreement and falls under Screened Projects, Appendix C, Activities 2 and 3. The project is exempt from further cultural resources work and Section 106 review.

INTEROFFICE MEMORANDUM

July 13, 2022

TO: Job File

FROM: Richard Jenkins, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 030555
Mineral Springs - McNab (S)
Route 355, Sections 1 & 2
Hempstead and Howard Counties

This job proposes 17.62 miles of mill and overlay and adding 2' on Section 1 and adding 4' shoulders on Section 2 of Highway 355 from the north intersection of Highway 27 in Mineral Springs to McNab, in Hempstead and Howard Counties. No new right-of-way (ROW) will be acquired.

A records review included an examination of site files at the Arkansas Archeological Survey's (ARAS) database for previously recorded archeological sites and the Arkansas Historic Preservation Program's (AHPP) database for structures, properties or features eligible for or listed on the National Register of Historic Places (NRHP). Map review included the 1840 General Land Office plat of Township 11 South, Range 27 West, and Township 12 South, Range 26 West, the 1936 Hempstead and Howard County highway maps, and the 7.5' Mineral Springs South and McNab topographic maps. The review of the ARAS and the AHPP databases identified no previously recorded sites, properties, or structures in or near the project limits. None of the other resources reviewed indicated any potential cultural resources in or near the project.

The existing topography, aerial imagery, previous infrastructure, and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will take place within heavily disturbed areas in the existing ROW. The scope of the project occurs within previously disturbed areas. Therefore, this project requires no Section 106 review under Appendix C, Activity 2, of the 2021 Programmatic Agreement.

SL

FROM: Shelby Linck, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job A40017
Hwys. 71 & 71B (Sel. Secs.) (S)
Route 71, Sections 10 and 10B
Scott County

The Arkansas Department of Transportation (ARDOT) proposes to complete 18.431 miles of 1" level up and overlay (log miles 13.92–15.67); scrub and overlay (log miles 15.67–17.33); mill and overlay (log miles 17.33–19.54 and 25.21–34.58); and mill and overlay and adding 2' shoulders where applicable (Hwy. 71B). Work will be completed from south of the intersection of Highways 71 and 28 to the intersection of Highway 71B and 6th Street, from the Highway 71 and 71B intersection to just south of the Highway 71 and Hyacinth Road intersection, and just south of the the Highway 71 and Foxy Lane intersection to the Scott and Logan County line in Scott County. All work will occur within the existing right-of-way (ROW).

An examination of the Arkansas Archeological Survey's (ARAS) records was conducted for previously recorded archeological sites located on or adjacent to the proposed project area. According to ARAS records, one archeological site (3SC2483), an agricultural field on a General Land Office map (GLO), was identified within the proposed project area. No evidence of a site was found during a field visit in 2006. Based on records check at the Arkansas Historic Preservation Program (AHPP) for NRHP properties, no previously recorded historic structures are located within or near the proposed project area.

In addition to checking ARAS and AHPP records, nineteenth through twentieth century maps were examined. The 1845 GLO plat maps of Townships 2–4 North, Ranges 29 and 30 West shows cultural improvements, such as roads

and agricultural fields within and nearby the project. The 1890 Poteau Mountain, AR and the 1890 Fort Smith, AR 15' topographical quadrangle maps show similar roads seen on the 1845 GLO maps as well as the communities of Tomlinson and Waldron. The 1936 Scott County map shows scatterings of small communities mapped nearby the corridor and Highway 71 and the Arkansas Western Railroad southeast of Waldron. The 1939 (1954 edition) Waldron, AR and 1947 (1954 edition) Barber, AR 15' topographical quadrangle maps show the alignment of Highway 71 before the Waldron bypass. In addition, it shows multiple structures alongside the highway, and communities of Needmor, The Pines, Elm Park, and Boothe. The Ouachita National Forest is also shown. The 1983 (1984 edition) Waldron, AR 7.5' topographical quadrangle map shows the change of alignment of Highway 71 to bypass Waldron and Highway 71B. None of these structures, if still extant, will be affected by the proposed actions.

The existing topography, aerial imagery, previous infrastructure, and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing city ROW. This project is subject to the 2021 Programmatic Agreement and falls under Activity 2 in Appendix C. The project requires no Section 106 review.

Shelby Linck

FROM: Shelby Linck, Cultural Resources Section

SUBJECT: Cultural Resources Clearance Addendum
Job A40017
Hwys. 71 & 71B (Sel. Secs.) (S)
Route 71, Sections 10, 10B & 11
Logan & Scott Counties

Previously, Arkansas Department of Transportation (ARDOT) proposed to complete 18.431 miles of 1" level up and overlay (log miles 13.92–15.67); scrub and overlay (log miles 15.67–17.33); mill and overlay (log miles 17.33–19.54 and 25.21–34.58); and mill and overlay and adding 2' shoulders where applicable (Hwy. 71B). Log miles 0.000–1.116 in Logan County have now been added to the proposed job. Work will be completed from the Logan and Scott County line near the intersection of Rumda Drive and Highway 71 to the Logan and Scott County line just east of the Highway 71 and Echo Road intersection. All work will occur within the existing right-of-way (ROW).

For the additional section, an examination of the Arkansas Archeological Survey's (ARAS) records was conducted for previously recorded archeological sites located on or adjacent to the proposed project area. According to ARAS records, no archeological site was identified within the proposed project area. Based on records check at the Arkansas Historic Preservation Program (AHPP) for NRHP properties, one previously recorded historic structure (LO0274) is located adjacent to the proposed project area. This structure is a bridge that is no longer extant.

In addition to checking ARAS and AHPP records, nineteenth through twentieth century maps were examined. The 1843 GLO plat maps of Township 5 North, Range 29 West shows Petit Jean Creek and "Geo. Carroll's Field" near the project area. The 1890 Fort Smith, AR 30'' topographical quadrangle map

shows a similar road alignment to Highway 71 and the nearby communities of Fuller, Crow, and Tomlinson as well as Petit Jean Creek. The 1906 Barber, AR 15' topographical quadrangle map shows a similar road alignment to Highway 71 and a toll bridge crossing. The 1936 Logan County highway map shows the road labeled as Highway 71 and buildings adjacent to the roadway. The 1947 (1954 edition) Barber, AR 15' topographical quadrangle map shows the current alignment of Highway 71, secondary roads, and adjacent structures. None of these structures, if still extant, will be affected by the proposed actions. No cemeteries or evidence of the Trail of Tears within the project area was found.

The existing topography, aerial imagery, previous infrastructure, and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW. This project is subject to the 2021 Programmatic Agreement and falls under Activity 2 in Appendix C. The project requires no Section 106 review.

Logan County

This job proposes 11.504 miles of thin overlay (1”) from log miles 0–2.92; mill and inlay/overlay from log miles 2.92–6.88; 1” level up and sealing with patching from log miles 9.60–6.88; chip seal from log miles 13.23–14.22; and rumble strips. Work will be completed on Highway 10 from the Logan and Sebastian County line to the intersection of Highway 10 and North Broadway Street (log miles 0.00–6.884) and east of the intersection of Highway 10 and North State Highway 116 to west of the intersection of Highway 10 and Prairie Branch Creek (log miles 9.600–14.220) in Logan County.

This project is subject to the 2021 Programmatic Agreement and falls under Activity C and F in Appendix B. The project is exempt from further work or Section 106 review.

TO: Job File

FROM: Shelby Linck, Cultural Resources Section SL

SUBJECT: Cultural Resources Clearance
Job 040827
Cedarville – Van Buren (Sel. Secs.) (S)
Route 59, Section 5
Crawford County

This job proposes 12.449 miles of scrub and overlay (log miles 13.47–21.4), mill and inlay/overlay (log miles 21.4–25.05 and 26.40–27.27), and rumble stripes (log miles 13.470–23.825) on Highway 59 near the intersection of Pinecrest Road and Highway 59 to the intersection of North 6th Street and Highway 59 and again south of the intersection of Adaline Lane and Highway 59 to the intersection of Broadway Street and Highway 59 in Crawford County. This project will go through the Van Buren Historic District (adjacent to properties eligible within a district CW0001–CW00013 and CW0023) along Highway 59 and will be adjacent to properties CW0384, CW011, CW0139 that are listed in the National Register of Historic Places. This project will be confined to highway right-of-way and will not alter the design of the current roadway. In addition, the rumble stripes will not be placed within or near these historic properties.

This project is subject to the 2021 Programmatic Agreement and falls under Activities C and F in Appendix B. The project is exempt from Section 106 review.

RE: Washington County: General
Section 106 Review: FHwA
Proposed Undertaking: Hwys. 62 & 170 (Sel. Secs.) (S)
Route 62, Section 1
Route 170, Section 2
ARDOT Number: 040841
AHPP Tracking Number: 110135

Dear Mr. Fleming:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the submission for the above referenced undertaking in Washington County, Arkansas. The proposed undertaking entails the completion of UTBWC (Hwy. 62 log miles 17.08-20.80), mill and inlay/overlay (Hwy. 62 log miles 20.80-24.71) 1" level up and overlay (Hwy. 170 log miles 0.00-0.75), UTBWC (Hwy. 170 log miles 0.75-3.16), and rumble strips.

Eight previously recorded archeological sites (3WA0471, 3WA0473, 3WA0499. 3WA1251, 3WA0089, 3WA1105, 3WA0346, and 3WA1479/WA0797) are located adjacent to the proposed project area. Each of these sites has either been destroyed by prior highway construction or are located outside the right-of-way and will not be affected by highway construction. The project is also located along the Trail of Tears, which has already been affected due to modern highway construction. Two burials (WA0797 and the Cole Grave) are also located adjacent, but are outside of the right-of-way and will not be affected.

Based on the provided information, the AHPP concurs with the finding of **no historic properties affected pursuant to 36 CFR § 800.4(d)(1)** for the proposed undertaking.

Tribes that have expressed an interest in the area include the Cherokee Nation, the Osage Nation, and the Shawnee Tribe. We recommend consultation in accordance with 36 CFR § 800.2(c)(2).

Thank you for the opportunity to review this undertaking. Please refer to the AHPP Tracking Number listed above in all correspondence. If you have any questions, call Kathryn Bryles at 501-324-9784 or email kathryn.bryles@arkansas.gov.

Sincerely,

Kathryn Bryles

Re: Franklin County – Altus
Section 106 Review – FHWA
Route 64, Section 3
ARDOT Job Number 040829
AHPP Tracking Number 110182

Dear Mr. Fleming:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the report received August 4, 2022 for the above-referenced job in Franklin County. The proposed undertaking involves completing 2" mill and overlay, an additional 2" overlay and shoulder widening at Bridges 05180, A164 and 01648. All work will occur within the existing right-of-way (ROW).

This project is adjacent to several historic archaeological and architectural properties. However, considering that the work will be confined to the ROW and unlikely to affect any character defining features of the recorded historic properties, the AHPP concurs with a finding of **no adverse effects pursuant to 36 CFR § 800.5(b).**

We appreciate the opportunity to review this undertaking. If you have any questions, please contact George Burson at (501) 324-9270 or at George.Burson@arkansas.gov. Please refer to the AHPP Tracking Number above in any correspondence.

Sincerely,
George Burson
for

INTEROFFICE MEMORANDUM

July 20, 2022

TO: Environmental Job File

FROM: Jason Kennedy, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 050443
Brandenburg – Hwy. 69 (S)
Route 9, Section 12
Izard County

The project proposes 11.26 miles of 2-inch overlay and minor shoulder widening on Highway 9, between Brandenburg and Melbourne, in Izard County. No new right-of-way (ROW) will be acquired. All work will occur within the existing ROW.

A records check of the Arkansas Archeological Survey's database showed one archeological site (3IZ0250) in or immediately adjacent to the proposed project area. This is the location of the Lone Star Cemetery. The Arkansas Historic Preservation Program's database showed no structures in or near the project area. No additional cemeteries are recorded near the project area.

Nineteenth through twentieth century maps were examined. The 1821 General Land Office plat maps of Township 15 North, Range 10 West and Townships 16 North, Ranges 9 and 10 West show no cultural resources. The 1936 Izard County map and the 1964 Guion, AR, 1984 Melbourne, AR, and 1964 Sylamore, AR 7.5min quad maps show minimal development beyond a scattering of structures that would have been near or intersected the project area. In addition, the Trail of Tears (ToT) crosses the project area at the community of Lone Star and just to the west of Melbourne. No evidence of this trail is present in the existing ROW.

The existing topography, aerial imagery, previous infrastructure and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW, and the scope of the project occurs within previously disturbed areas. This project is subject to the 2021 Programmatic Agreement with the proposed actions falling under Appendix C, Activity 2. The project requires no Section 106 review.

ARKANSAS DEPARTMENT OF TRANSPORTATION
ArDOT.gov | IDriveArkansas.com | Lorie H. Tudor, P.E., Director

INTEROFFICE MEMORANDUM

August 30, 2022

TO: Environmental Job File

FROM: Jason Kennedy, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 050460
E. of Griffithville – Hwy. 367 (S)
Route 11, Section 11
White County

The project proposes pavement preservation on Highway 11 in White County. The work will consist of 2” Overlay, Rumble Stripes, and adding 2” Shoulders where applicable on 11.78 miles from Highway 367 to east of Griffithville. No new right-of-way (ROW) will be acquired.

A records check of the Arkansas Archeological Survey’s database showed two archeological sites (3WH757 and 3WH758) adjacent to the proposed project area. Both are historic sites surveyed in 2005 for the Red River Irrigation Project. Neither site was recommended for further work. A records check of the Arkansas Historic Preservation Program’s database showed one National Register of Historic Places (NRHP) eligible structure, WH1205, the Griffithville School near the project area. Current aerials indicate that this structure is no longer present and has possibly been demolished. No cemeteries are located directly adjacent to the project area.

Nineteenth through twentieth century maps were examined. The 1851 General Land Office plat maps of Townships 7 North, Ranges 7 West, Township 162 North, Ranges 6 and 7 West show several fields in the vicinity of Highway 11. The 1936 White County map shows development including numerous small communities and structures that would have been near the project area. None of these structures, if still extant, will be affected by the rehabilitation along the

course of Highway 11. Bridges M0354, M0355, M0356, M0357, and 05002 are 45 years of age or older and are within the project area. They were evaluated as not eligible to the NRHP (AHPP Tracking No. 110269).

The existing topography, aerial imagery, previous infrastructure and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW, and the scope of the project occurs within previously disturbed areas. Therefore, this project requires no Section 106 review under Appendix C, Activity 2 of the 2021 Programmatic Agreement.

INTEROFFICE MEMORANDUM

August 29, 2022

TO: Environmental Job File

FROM: Jason Kennedy, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 050450
Hwy. 18 – Independence Co. Line (Sel. Secs.) (S)
Route 37, Sections 4 & 5
Jackson County

The project proposes pavement preservation on Highway 37 in Jackson County. The work will consist of Resurfacing in Section 4, 2" Overlay in Section 5, and adding 2” Shoulders (where applicable) in both sections on 20.35 miles of highway from the Independence County Line to the Highway 18 intersection in Grubbs community. No new right-of-way (ROW) will be acquired.

A records check of the Arkansas Archeological Survey’s database showed four archeological sites (3JA361, 3JA363, 3JA364, and 3JA720) on or immediately adjacent to the proposed project area. Sites 3JA361, 3JA363, and 3JA364 are prehistoric sites surveyed in the 1970s for the construction of AHD Bridge Job 5666. The sites either had no further work recommended or were destroyed by the bridge construction. Site 3JA720 is a historic site to the north of the ROW and will not be impacted. Based on records check of Arkansas Historic Preservation Program’s database for National Register of Historic Places (NRHP) properties, no previously recorded historic structures are located on or adjacent to the proposed project area. Three cemeteries (Ballews Chapel Cemetery, Cole Cemetery, and Denton Cemetery) are located near the project area, with Ballews Chapel Cemetery located directly adjacent to the project area. The cemetery will not be impacted by this project.

Nineteenth through twentieth century maps were examined. The 1826, 1827, 1847, and 1854 General Land Office plat maps of Townships 13 North, Ranges 1, 2, and 3 West and Township 12 North, Range 1 West show several fields in the vicinity of Highway 37. The 1936 Jackson County map shows development including numerous small communities, structures, and the Ballews Chapel Cemetery. None of these structures, if still extant, will be affected by the rehabilitation along the course of Highway 37. Bridges M0825, M0829, and 03060 are 45 years of age or older and are within the project area. They were evaluated as not eligible to the NRHP (AHPP Tracking No. 110279). Bridges M0830 and M0831 had previously been documented on Job 050476 as not eligible for inclusion in the NRHP.

The existing topography, aerial imagery, previous infrastructure and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW, and the scope of the project occurs within previously disturbed areas. Therefore, this project requires no Section 106 review under Appendix C, Activity 2 of the 2021 Programmatic Agreement.

FROM: Jason Kennedy, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 061664
Hwy. 38 – Hwy. 367 (Ward) (S)
Route 319, Section 1
Lonoke County

The project proposes to resurface and add 2' shoulders on 2.94 miles of Highway 319 in Lonoke County. The work will occur from the Highway 38 intersection to the railroad crossing just before the Highway 367 intersection. No new right-of-way (ROW) will be acquired.

A records check of the Arkansas Archeological Survey's database showed two archeological sites (3LN0645 and 3LN0646) near to the proposed project area. Sites 3LN0645 and 3LN0646 are both historic sites related to Civil War events. Neither site is adjacent to the ROW and will not be impacted. Both sites are also located via records check of Arkansas Historic Preservation Program's database for National Register of Historic Places (NRHP) properties, (LN0173 and LN0174). No cemeteries are located near the project area.

Nineteenth through twentieth century maps were examined. The 1819, General Land Office plat maps of Township 4 North, Range 9 West and Township 5 North, Range 9 West showed no cultural resources in the vicinity of the project area. The 1936 Lonoke County map shows development including several structures that would have been near the project area. None of these structures, if still extant, will be affected by the rehabilitation along the course of Highway 319. No bridges are within the project area.

The existing topography, aerial imagery, previous infrastructure and construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within the existing ROW, and the scope of the project occurs within previously disturbed areas. Therefore, this project requires no Section 106 review under Appendix C, Activity 2, of the 2021 Programmatic Agreement.

INTEROFFICE MEMORANDUM

August 16, 2022

TO: Assessments

FROM: Wm. Lane Shields, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 080656
Perry Co. Line – Ola (S)
Route 7, Section 12
Yell County

This project proposes to add a 1" level up & overlay and 2' shoulders on 6.06 miles of Highway 7 from the Perry County line to the intersection with Highway 10 in Ola, Yell County. All work will occur within the existing right-of-way (ROW).

An archeological and historic records review was conducted for this project which includes the Arkansas Archeological Survey (ARAS) site files of documented Native American and historical archeological sites, structures or features presented in the Automated Management of Archeological Site Data in Arkansas (AMASDA), the Arkansas Historic Preservation Program (AHPP) recorded structures and site/properties files, and the ArDOT bridges database. Other background research includes General Land Office plats for Township 4 North, Ranges 20 and 21 West (1844 and 1845 respectively), the 1936 Yell County General Highway and Transportation Map and all 38 versions of USGS topographic quadrangles for the area. All sources were reviewed for cemeteries, potentially historic structures and landforms conducive to hold archeological sites in or near the project.

The ARAS document no cultural resources in the vicinity, although five projects are in the area surrounding this project: AMASDA Number 5249 and four ArDOT jobs, 80030 (AMASDA 2999), 080156, 080385 (AMASDA 6176), and 080441 (AMASDA 7778).

The AHPP records 11 structures nearby, one of which is for ARDOT Job 080385, but none are within view of the project.

The GLO plats do not map many natural or cultural features. Near the end of the corridor there is a 'path' in the vicinity of the Highway 7 corridor and a 'road' that approximates the final quarter mile where the corridor is both Highway 7 and 28. The 1936 highway map shows no settlement along the majority of the corridor, with only a few clustered in the final mile south of Ola.

The USGS quadrangles range from 1888–2020. The earlier maps, Dardanelle (1888, 1:62,500) and Hot Springs (1890, 1:125,000), do not have a lot of information. The project road does not exist in the 1800s and there is a large time gap in the maps. The road does show up in the 1950s, but it probably dates at least to the 1930s based on the county highway map and the fact that a bridge about a mile south of Ola was constructed by the Work Projects Administration, one of the New Deal job programs (see 080441). A bypass was constructed to cut off that bridge and in addition, has been removed.

One cemetery, the Ola Sandlin, is in the project vicinity. It is on the USGS topographic map but cannot be seen from the project corridor.

The existing topography, aerial imagery, and construction plans were examined to assess previous ground disturbance. The project will occur within the previously disturbed ROW. This project is subject to the 2021 Programmatic Agreement with the proposed actions falling under Appendix C, Activity 2. The project requires no Section 106 review.

INTEROFFICE MEMORANDUM

July 14, 2022

TO: Assessments

FROM: Wm. Lane Shields, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job 080639
N. of Beaver Fork Lake – Hwy. 65
Route 25, Section 0
Faulkner County

This project proposes to do a 2-inch overlay, add rumble strips, and add a left turn lane within the existing right-of-way (ROW) at High School Drive, in Faulkner County. The 9.02 mi. project runs along Hwy. 25 from a short distance north of Beaver Fork Lake to the intersection with Hwy. 65 at Greenbrier.

These actions are subject to the 2021 Programmatic Agreement and the first two actions fall under Activities C and F of Appendix B. However, the turn lane falls under Activity 3 of Appendix C, so the following background research is presented.

An archeological and historic records review was conducted for this project which includes the Arkansas Archeological Survey (ARAS) site files in the Automated Management of Archeological Site Data in Arkansas (AMASDA), the Arkansas Historic Preservation Program (AHPP) recorded structures and site/properties files, and the ArDOT bridges database. Other background research includes the 1819 General Land Office (GLO) plats for Township 6 North, Range 14 West; Township 7 North, Ranges 14 and 13 West; the 1936 Faulkner County General Highway and Transportation Map, and all 15 versions of USGS topographic quadrangles for the area. All sources were reviewed for cemeteries, historic structures, and landforms conducive to hold archeological sites in or near the project.

The ARAS documents seven cultural resources and five projects in the area surrounding this project. One of the projects was for ARDOT job 8841 but there are no internal documents, and it consists only of site form 3FA91 (AMASDA tracking 544 but no report). Two other ARDOT jobs, 008570 and 080505, are not included in AMASDA, which will be corrected by the current project.

The AHPP records show 10 structures nearby, including two listed in the National Register of Historic Places. One of those listed sites, FA870, is adjacent to the project but shielded from view by mature landscaping. Another of these sites is FA1467, recorded by AHPP for project 080505. In addition to not being in AMASDA, there is no AHPP review for the project. Five of the 10 are no longer extant and another, FA1232, is the Samul Estep Cemetery. That cemetery is a small family plot near the project but not in view. Two other fairly substantial cemeteries, Pleasant Valley Graveyard and the Pearson Cemetery, are adjacent to the highway. Both are in the USGS' Geographic Names Information System database.

The GLO plats basically consist of property ownership data although the East Fork of the Cadron Creek is shown. The 1936 highway map shows many structures along Hwy. 25. Only the Pleasant Valley Graveyard is shown. The USGS quadrangles range from 1956–2020. The earlier maps, Russellville, are at 1:250,000 scale and are not useful in identifying individual structures. They do show that US 65 approximates todays alignment. The oldest maps showing details date to 1961 (Conway 1:62,500 and Greenbrier 1:24,000) and they show Beaver Fork Lake, near the southern terminus, was constructed between 1956 and 1961. Both NRHP properties and all three cemeteries are also shown.

The project will be within the previously disturbed ROW. There will be no impact to known cultural resources and there is no potential to encounter significant archeological materials. As above, this project is subject to the 2021 Programmatic Agreement with the proposed actions falling under Activities 2 and 3 of Appendix C. The project requires no Section 106 review.

Job 101095
Hwys. 140 & 181 (Sel. Secs.) (S)
Route 140, Section 2
Route 181, Section 2
Mississippi County

This project proposes to add a 2" overlay (Hwy. 140, Log Mile 14.628 to 17.090); UTBWC with leveling (Hwy. 140, Log Mile 17.090 to 18.400); 1" level up, overlay with patching, and 2' shoulders (Hwy. 181); and rumble strips on 7.76 miles of Highway 140 and Highway 181 in Mississippi County. The project extends from Log Mile 0.000 to 3.988 on Highway 181 and from 14.628 to 18.400 on Highway 140.

A records check at the Arkansas Archaeological Survey shows two sites (3MS0937 and 3MS0727) near the proposed project, but will not be effected by this undertaking. The review of the Arkansas Historic Preservation Program's (AHPP) structure database shows no historic structures near the project. ArDOT Bridges 03825, 03824, M2233, M2232, M1993, and X0750 are within the project area, but will not be impacted. No cultural indicators were found on the 1829 General Land Office plat, the 1936 Mississippi County road map, quadrangle maps, or aerial imagery.

The vertical and horizontal extents, known construction practices, available plans, and contours were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within previously disturbed areas. This project is subject to the 2021 Programmatic Agreement and falls under Activity 2 in Appendix C. The project requires no Section 106 review.

Job 101085
Randolph Co. Line - Delaplaine (S)
Route 304, Section 2
Greene County

This project proposes to add a 1" level up and overlay with patching and 2' shoulders on 5.49 miles of Highway 304 in Greene County. The project extends from Log Mile 0.000 to 5.485. All work will occur within the existing right-of-way.

A records check at the Arkansas Archaeological Survey shows one site (3GE0528) near the proposed project, but will not be effected by this undertaking. The review of the Arkansas Historic Preservation Program's structure database shows no historic structures near the project. ARDOT Bridge X0260 is within the project area but will not be impacted. No cultural indicators were found on the 1829 General Land Office plat, the 1936 Greene County road maps, quadrangle maps, or aerial imagery.

The vertical and horizontal extents, known construction practices, available plans, and contours were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will be within previously disturbed areas. This project is subject to the 2021 Programmatic Agreement and falls under Activity 2 in Appendix C. The project requires no Section 106 review.

Re-evaluation for Tier 1 Categorical Exclusion

A Tier 1 Categorical Exclusion was completed for the referenced project on October 17, 2022. Since that time, design modifications have resulted in the addition of a turn lane on Highway 119Y and reconstruction of Interstate 55 ramps. A project location map is attached.

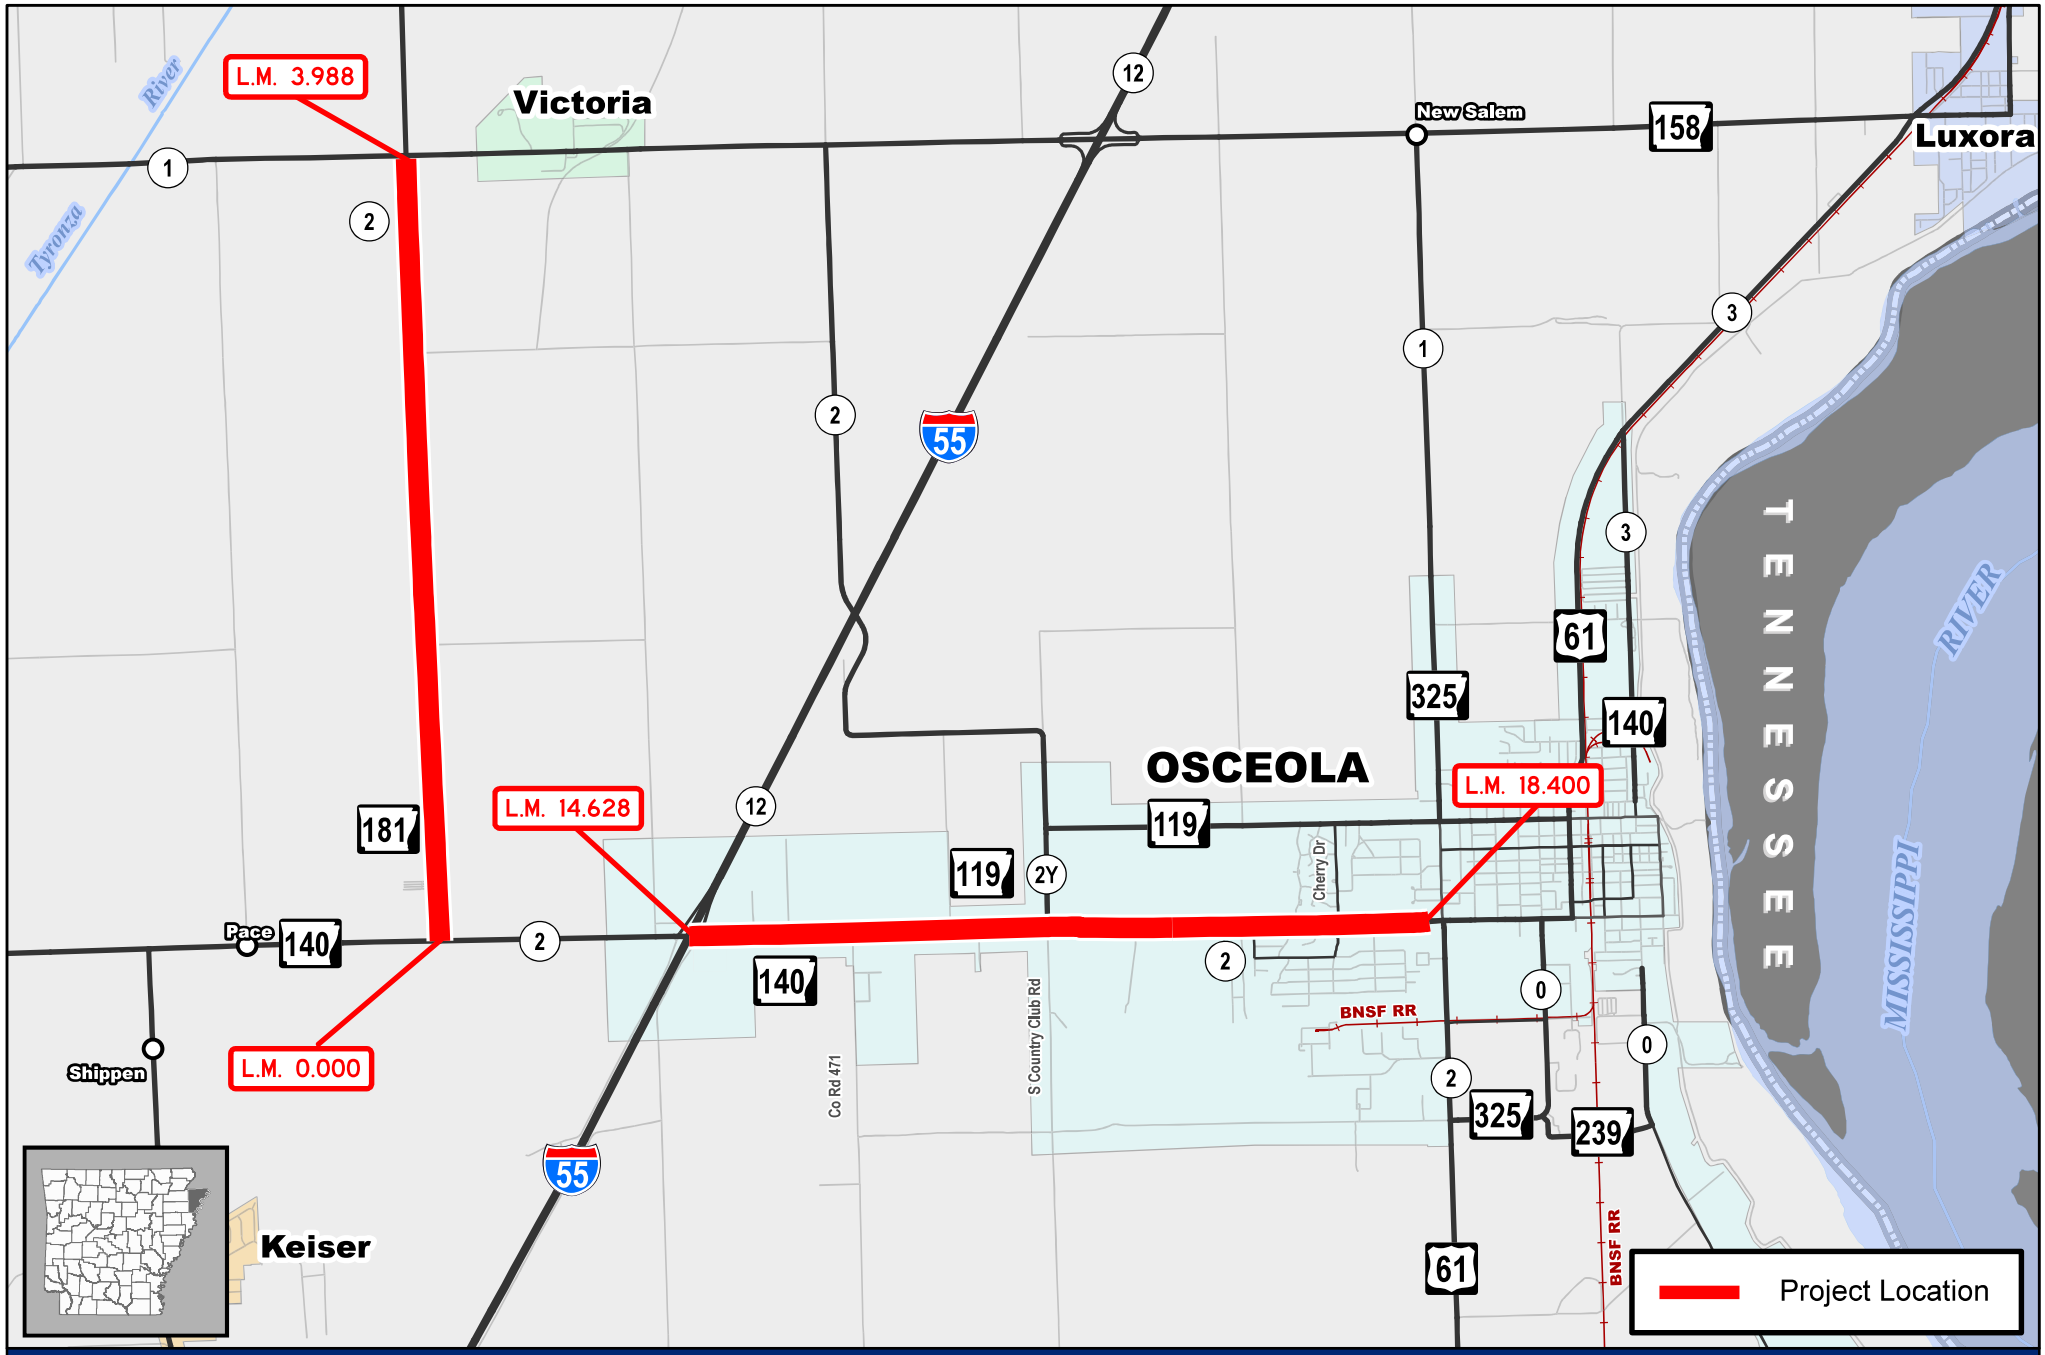

The Environmental Division has reviewed these changes, and no additional environmental impacts were identified. Cultural resources clearance is attached.

This project will remain a Tier 1 Categorical Exclusion as defined by the ArDOT/FHWA Programmatic Agreement on the processing of Categorical Exclusions.

INTEROFFICE MEMORANDUM

February 7, 2023

TO: Environmental Job File

FROM: Daniel Hildebran, Cultural Resources

SUBJECT: Cultural Resources Clearance
Job A00045
Hwys. 140 & 181 (Sel. Secs.) (S)
Route 140, Section 2
Route 181, Section 2
Mississippi County

This project, previously under Job 101095, proposes to additionally include a reconstruction of the I-55 ramps and add a turn lane EB/WB at Highway 119Y in Mississippi County.

A records check at the Arkansas Archaeological Survey shows two sites (3MS0937 and 3MS0727) near the proposed project, but will not be effected by this undertaking. The review of the Arkansas Historic Preservation Program's structure database shows no historic structures near the project. ARDOT Bridges 03825, 03824, M2233, M2232, M1993, and X0750 are within the project area, but will not be impacted. No cultural indicators were found on the 1829 General Land Office plat, the 1936 Mississippi County road maps, quadrangle maps, or aerial imagery.

The highway infrastructure and known construction practices were examined to assess previous ground disturbance. This type of undertaking has no potential to cause effects to historic properties. All work will take place within the existing ROW, and the limited scope of the project occurs within previously disturbed areas. Therefore, this project is exempt from additional Section 106 review under Appendix C, Activity 2 and 3, of the 2021 Programmatic Agreement.
