**MULTIPLE ARDOT JOBS
NOVEMBER 2026 PAVEMENT PRESERVATION PROGRAM PROJECTS
MULTIPLE COUNTIES**

Pursuant to 23 CFR 771.117
and the Programmatic Agreement between
the Federal Highway Administration
and the
Arkansas Department of Transportation

September 2026

September 16, 2026
Date of Approval

for 
Josh Seagraves
Division Head – Environmental Division
Arkansas Department of Transportation

The purpose of these projects is to preserve and rehabilitate highway pavement throughout Arkansas. The attached table lists the projects, their locations, and type of work. Project location maps are attached. A public hearing will not be offered for these projects.

These projects would not involve relocations or impacts to Important Farmlands, underground storage tanks, hazardous materials, public water supplies, floodplains, Waters of the U.S., Section 4(f)/6(f) resources, or cultural resources. The projects have been determined to generate minimal air quality impacts for Clean Air Act criteria pollutants and have not been linked with any special mobile source air toxics concerns. Cultural resources clearances are attached.

The attached official species list obtained through the US Fish and Wildlife Service (USFWS) Information for Planning and Consultation website identified the following species as potentially occurring within the project area: Gray Bat (*Myotis grisescens*), Indiana Bat (*Myotis sodalis*), Northern Long-eared Bat (*Myotis septentrionalis*), Tricolored Bat (*Perimyotis subflavus*), Eastern Black Rail (*Laterallus jamaicensis jamaicensis*), Ivory-billed Woodpecker (*Campephilus principalis*), Piping Plover (*Charadrius melodus*), Red-cockaded Woodpecker (*Dryobates borealis*), Rufa Red Knot (*Calidris canutus rufa*), Alligator Snapping Turtle (*Macrochelys temminckii*), Ozark Hellbender (*Cryptobranchus alleganiensis bishopi*), Leopard Darter (*Percina pantherina*), Yellowcheek Darter (*Nothonotus moorei*), Arkansas Fatmucket (*Lampsilis powellii*), Fat Pocketbook (*Potamilus capax*), Ouachita Fanshell (*Cyprogenia* sp. cf. *aberti*), Ouachita Rock Pocketbook (*Arcidens wheeleri*), Pink Mucket (*Lampsilis abrupta*), Rabbitsfoot (*Theliderma cylindrica*), Snuffbox Mussel (*Epioblasma triquetra*), Speckled Pocketbook (*Lampsilis streckeri*), Western Fanshell (*Cyprogenia aberti*), Winged Mapleleaf (*Quadrula fragosa*), Monarch Butterfly (*Danaus plexippus*), Missouri bladderpod (*Physaria filiformis*), and pondberry (*Lindera melissifolia*).

Using the USFWS determination keys, the projects would have “no effect” on these species due to the limited scope of the action, lack of suitable habitat, and distance to known species locations.

The Alligator Snapping Turtle and Monarch Butterfly are proposed threatened species and the Tricolored Bat is a proposed endangered species. The proposed project would not jeopardize the continued existence of these species.

These projects would not have a discharge of dredged or fill material into waters of the United States. A Section 404 permit is not required.

Jobs A10059, A20044, and A70050, and A40062 will include Water Pollution Control (WPC) SPs due to the proximity of public water supplies and all of these but A40062 will require coordination with the Arkansas Department of Health and Barton Lexa Water (A10059), Dewitt Waterworks (A20044), and Gurdon Waterworks (A70050). Additional WPC SPs will be included on A50052 due to the presence of an Ecologically Sensitive Spring/Seep and on A90050 and A90051 due to sensitive karst locations.

Sections of the proposed projects may lie within Special Flood Hazard Areas. Adjacent properties should not be impacted nor have a greater flood risk than existed before construction of the project. None of the encroachments would constitute a substantial floodplain encroachment or a risk to property or life.

Commitments made as part of the NEPA process:

- Water Pollution Control Special Provisions will be added on jobs with public water supplies or sensitive natural resources in the project area.
- Jobs near public water supplies will require coordination with the Arkansas Department of Health and the public water supply operator.

RE: Phillips County: General
Section 106 Review: FHWA
Proposed Undertaking: Hwy. 49 – Hwy. 44 (S)
Hwy. 85, Sect. 1
ARDOT Job Number: A10059
AHPP Tracking Number: 115254

Dear Mr. Seagraves:

The staff of the Arkansas Historic Preservation Program (AHPP) reviewed the submission for the aforementioned undertaking in multiple sections of Townships 2 and 3 South, Range 3 East in Phillips County, Arkansas. The project proposes to apply pavement preservation methods along 9.71 miles of Highway 85 between Walnut Corner and Lakeview. This will include leveling the highway, adding an asphalt overlay, and adding 2-foot-wide paved shoulders. No new right-of-way or temporary construction easements are needed for this undertaking, therefore no new ground disturbance will occur. There are previously recorded archeological sites (3PH0124, 3PH0502, and 3PH0551) and a historic district (Lakeview Resettlement Project Historic District) near the 9.71 mile area of potential effect (APE), but none will be affected by this undertaking.

Based on the provided information, the AHPP concurs that there will be no adverse effect to historic properties pursuant to 36 CFR § 800.5(b)(1) as a result of this undertaking. In the event of a post-review discovery of historic properties within the area of potential effects, please contact the AHPP and other consulting parties in accordance with 36 CFR § 800.13(b)(3).

Thank you for the opportunity to review this submission. If you have any questions, please contact Jessica Cogburn at 501-324-9357 or email jessica.cogburn@arkansas.gov.

Sincerely,
**Jessica

INTEROFFICE MEMORANDUM

September 2, 2026

TO: Environmental Job File

FROM: Jason Wilhelmi, Cultural Resources

JW

SUBJECT: Cultural Resources Clearance
Job A20044
Hwy. 165 – Hwy. 152 (S)
Route 130, Section 6
Arkansas County

This job proposes to apply a 2-inch overlay and add 2-foot shoulders on 23.8 miles of Hwy. 130, between Stuttgart and DeWitt in Arkansas County. All work will occur within the existing right-of-way (ROW).

A records check at the Arkansas Archeological Survey shows one site (3AR0126 – McDaniel Cemetery) near the proposed project area. The Arkansas Historic Preservation Program's structure database shows North Jackson Street Bridge (AR0357) listed on the National Register of Historic Places near the project area. No cultural indicators were found on the 1815 GLO plats of T2S R4W and T3S R4W; the 1816 plats of T3S R5W, T3S R3W, and T4S R3W; and the 1854 plat of T5S R3W. The 1936 Arkansas County General Highway and Transportation map shows the Arkansas State College Experimental Farm and a cemetery north of Almyra (Almyra Cemetery). The 1968 DeWitt, ARK 7.5 min quadrangle map shows McDaniel Cemetery (3AR0126) north of DeWitt.

The highway infrastructure, known construction practices, utilities, and available plans were examined to assess previous ground disturbance. This type of undertaking will have no adverse effect on historic properties. The scope of the project is limited to repetitive ARDOT actions, and all work will be within the existing disturbed ROW (highway construction). Therefore, this project requires no Section 106 review under Appendix B, Activity 2 of the 2024 Amended Programmatic Agreement.

INTEROFFICE MEMORANDUM

September 2, 2026

TO: Environmental Job File

FROM: Jason Eads, Cultural Resources Section

SUBJECT: Cultural Resources Clearance
Job A30049
Hwy. 355 – Hwy. 278 (S)
Route 73, Secs. 0, 1, & 2
Hempstead and Howard Counties

This job proposes 18.52 miles of level up and 2-inch overlay on Highway 73 from Hwy. 355 to Hwy. 278, in Hempstead and Howard Counties. This project is subject to the 2024 Amended Programmatic Agreement and falls under Activity C in Appendix A. The project is exempted from further work or Section 106 review.

INTEROFFICE MEMORANDUM

September 4, 2026

TO: Environmental Job File

FROM: Arik Scapellato, Cultural Resources

SUBJECT: Cultural Resources Clearance
Job A40062
Hwy. 8 -- South (S)
Route 8, Sec. 1
Polk County

AS.

This project proposes to use Act 416 funding to complete a level-up and 2" overlay with spot patching and 2' shoulders on 11.62 miles of Highway 8 in Polk County. All work will be within the existing right of way (ROW).

An examination of the Arkansas Archeological Survey's (ARAS) records was conducted for previously recorded archeological sites located in or adjacent to the proposed project area. According to ARAS records, there are three previously recorded archaeological sites (3PL1259 and 3PL0065- lithic scatters and 3PL1594- CCC culverts) within or adjacent to the project area. Based on the records check of the Arkansas Historic Preservation Program (AHPP) database and the ARDOT Cultural Resources Viewer for NRHP properties, there is one property (PL0111- Dallas School) near the project area. No cemeteries are indicated in or near the project, and there are no historic bridges along its path.

In addition to checking ARAS and AHPP records, nineteenth- through twentieth-century maps were examined, including the 1847 General Land Office (GLO) plats of Township 2 North, Range 30 West, Township 3 North, Range 30 West, and Township 3 North, Range 29 West; the 1936 Polk County General Highway and Transportation map; and the 7.5' topographic quadrangle maps. The 1847 GLO plat shows several old roads, fields, and structures near the project. The 1936 Polk County General Highway and Transportation map and topographic maps show several structures along the project.

The highway infrastructure, known construction practices, utilities, and available plans were examined to assess previous ground disturbance. This type of undertaking will have no adverse effect on historic properties. The scope of the project is limited to repetitive ARDOT actions, and all work will be within the existing disturbed ROW (highway construction). Therefore, this project requires no Section 106 review under Appendix B, Activity 2, of the 2024 Amended Programmatic Agreement.

TO: Environmental Job File

FROM: Daniel Hildebran, Cultural Resources

SUBJECT: Cultural Resources Clearance
Job A50052
Stone Co. Line – Hwy. 25 (S)
Route 14, Section 8
Independence County

This project proposes to 2" overlay, spot leveling and add 2' shoulders on 6.08 miles of Highway 14 in Independence County. All work will occur within the existing right-of-way (ROW).

A records check at the Arkansas Archaeological Survey shows one site (3IN1293) near the proposed project. The review of the Arkansas Historic Preservation Program's (AHPP) structure database shows no historic structures near the project. ARDOT Bridges M0382 and M0383 are within the project area and were evaluated as not eligible for inclusion in the National Register of Historic Places (AHPP Tracking Number 110219.03D). No cultural indicators were found on the 1829 General Land Office plat, the 1936 Independence County General Highway and Transportation map, quadrangle maps, or aerial imagery.

The highway infrastructure, known construction practices, utilities, and available plans were examined to assess previous ground disturbance. This type of undertaking will have no adverse effect on historic properties. The scope of the project is limited to repetitive ARDOT actions, and all work will be within the existing disturbed ROW (highway construction). Therefore, this project requires no Section 106 review under Appendix B, Activity 2 of the 2024 Amended Programmatic Agreement.

INTEROFFICE MEMORANDUM

August 26, 2026

TO: Environmental Job File

FROM: Jason Kennedy, Cultural Resources Section 

SUBJECT: Cultural Resources Clearance
Job A70050
Hwy. 67 – Hwy. 51 (S)
Route 182, Section 0
Clark County

This job proposes 12.45 miles of leveling, patching, & 3" overlay, as well as adding 2-foot shoulders along Highway 182 between Gurdon and Okolona, Clark County. All work will occur within the existing ARDOT right-of-way (ROW).

A records check at the Arkansas Archeological Survey shows no sites in or near the proposed project. No historic structures were shown on the Arkansas Historic Preservation Program's (AHPP) structure database that are eligible or listed on the National Register of Historic Places (NRHP) near the project. A GLO field is shown on the 1854 GLO plats for Township 8 South, Range 22 West and Township 9 South, Range 22 West, and a road intersecting the project area is shown on the 1855 GLO plat for Township 9 South, Range 21 West. No cultural indicators were found on the 1858 GLO plat for Township 9 South, Range 20 West near the project. The 1936 Clark County General Highway and Transportation map shows several structures, including a school and church, along the existing highway. The 1970 Gurdon, ARK and 1970 Okolona South, ARK 7.5' topographic maps both show a number of structures along the project area.

Bridge X0234 is within the project area and was evaluated as not eligible for inclusion in the NRHP (AHPP Tracking Number 110219.03D).

The highway infrastructure, known construction practices, utilities, and available plans were examined to assess previous ground disturbance. This type of undertaking will have no effect on historic properties. The scope of the project is limited to repetitive ARDOT actions, and all work will be within the existing disturbed ROW (highway construction). Therefore, this project requires no Section 106 review under Appendix B, Activity 2, of the 2024 Amended Programmatic Agreement.

Project Code: 2026-0142395

Project Name: November 2026 Act 416 Pavement Preservation

Subject: List of threatened and endangered species that may occur in your proposed project location or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 *et seq.*), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2)(c)). For projects other than major construction activities, the Service suggests that a biological

evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<https://www.fws.gov/sites/default/files/documents/endangered-species-consultation-handbook.pdf>

Migratory Birds: In addition to responsibilities to protect threatened and endangered species under the Endangered Species Act (ESA), there are additional responsibilities under the Migratory Bird Treaty Act (MBTA) and the Bald and Golden Eagle Protection Act (BGEPA) to protect native birds from project-related impacts. Any activity resulting in take of migratory birds, including eagles, is prohibited unless otherwise permitted by the U.S. Fish and Wildlife Service (50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)). For more information regarding these Acts see <https://www.fws.gov/program/migratory-bird-permit/what-we-do>.

It is the responsibility of the project proponent to comply with these Acts by identifying potential impacts to migratory birds and eagles within applicable NEPA documents (when there is a federal nexus) or a Bird/Eagle Conservation Plan (when there is no federal nexus). Proponents should implement conservation measures to avoid or minimize the production of project-related stressors or minimize the exposure of birds and their resources to the project-related stressors. For more information on avian stressors and recommended conservation measures see <https://www.fws.gov/library/collections/threats-birds>.

In addition to MBTA and BGEPA, Executive Order 13186: *Responsibilities of Federal Agencies to Protect Migratory Birds*, obligates all Federal agencies that engage in or authorize activities that might affect migratory birds, to minimize those effects and encourage conservation measures that will improve bird populations. Executive Order 13186 provides for the protection of both migratory birds and migratory bird habitat. For information regarding the implementation of Executive Order 13186, please visit <https://www.fws.gov/partner/council-conservation-migratory-birds>.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. Please include the Consultation Code in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.

Note: IPaC has provided all available attachments because this project is in multiple field office jurisdictions.

Attachment(s):

- Official Species List
- USFWS National Wildlife Refuges and Fish Hatcheries
- Bald & Golden Eagles
- Migratory Birds
- Wetlands

OFFICIAL SPECIES LIST

This list is provided pursuant to Section 7 of the Endangered Species Act, and fulfills the requirement for Federal agencies to "request of the Secretary of the Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action".

This species list is provided by:

Arkansas Ecological Services Field Office

110 South Amity Suite 300
Conway, AR 72032-8975
(501) 513-4470

This project's location is within the jurisdiction of multiple offices. However, only one species list document will be provided for all offices. The species and critical habitats in this document reflect the aggregation of those that fall in each of the affiliated office's jurisdiction. Other offices affiliated with the project:

Missouri Ecological Services Field Office

101 Park Deville Drive
Suite A
Columbia, MO 65203-0057
(573) 234-2132

PROJECT SUMMARY

Project Code: 2026-0142395
Project Name: November 2026 Act 416 Pavement Preservation
Project Type: Road/Hwy - Maintenance/Modification
Project Description: Routine pavement preservation jobs proposed for November 2026 letting. 2" mills, 2" overlays, four locations include 2' shoulder additions, UTBWC.

Project Location:

The approximate location of the project can be viewed in Google Maps: <https://www.google.com/maps/@36.11774175,-93.74564785584252,14z>

Counties: Arkansas and Missouri

ENDANGERED SPECIES ACT SPECIES

There is a total of 26 threatened, endangered, or candidate species on this species list.

Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species.

IPaC does not display listed species or critical habitats under the sole jurisdiction of NOAA Fisheries¹, as USFWS does not have the authority to speak on behalf of NOAA and the Department of Commerce.

See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

-
1. [NOAA Fisheries](#), also known as the National Marine Fisheries Service (NMFS), is an office of the National Oceanic and Atmospheric Administration within the Department of Commerce.

MAMMALS

NAME	STATUS
Gray bat <i>Myotis grisescens</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/6329 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered
Indiana bat <i>Myotis sodalis</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/5949 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered
Northern Long-Eared Bat <i>Myotis septentrionalis</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/9045 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered
Tricolored bat <i>Perimyotis subflavus</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/10515 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Proposed Endangered

BIRDS

NAME	STATUS
Eastern Black rail <i>Laterallus jamaicensis jamaicensis</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/10477	Threatened
Ivory-billed woodpecker <i>Campephilus principalis</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/8230	Endangered
Piping Plover <i>Charadrius melodus</i> Population: [Atlantic Coast and Northern Great Plains populations] - Wherever found, except those areas where listed as endangered. There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/6039	Threatened
Red-cockaded woodpecker <i>Dryobates borealis</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/7614	Threatened

NAME	STATUS
rufa red knot <i>Calidris canutus rufa</i> There is proposed critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/1864	Threatened

REPTILES

NAME	STATUS
Alligator snapping turtle <i>Macrochelys temminckii</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/4658 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Proposed Threatened

AMPHIBIANS

NAME	STATUS
Ozark Hellbender <i>Cryptobranchus alleganiensis bishopi</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/647 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered

FISHES

NAME	STATUS
Leopard darter <i>Percina pantherina</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/8470	Threatened
Yellowcheek Darter <i>Etheostoma moorei</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/7871	Endangered

CLAMS

NAME	STATUS
Arkansas fatmucket <i>Lampsilis powellii</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/2213	Threatened
Fat pocketbook <i>Potamilus capax</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/2780 General project design guidelines:	Endangered

NAME	STATUS
https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	
Ouachita fanshell <i>Cyprogenia sp. cf. aberti</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/10889	Threatened
Ouachita rock pocketbook <i>Arcidens wheeleri</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/4509	Endangered
Pink mucket (pearlymussel) <i>Lampsilis abrupta</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/7829 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered
Rabbitsfoot <i>Quadrula cylindrica cylindrica</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/5165 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Threatened
Snuffbox mussel <i>Epioblasma triquetra</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/4135 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered
Speckled pocketbook <i>Lampsilis streckeri</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/7869	Endangered
Western fanshell <i>Cyprogenia aberti</i> There is final critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/6895 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Threatened
Winged Mapleleaf <i>Quadrula fragosa</i> Population: Wherever found, except where listed as an experimental population No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/4127 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered

INSECTS

NAME	STATUS
Monarch butterfly <i>Danaus plexippus</i> There is proposed critical habitat for this species. Your location does not overlap the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/9743	Proposed Threatened

FLOWERING PLANTS

NAME	STATUS
Missouri bladderpod <i>Physaria filiformis</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/5361 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Threatened
Pondberry <i>Lindera melissifolia</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/1279 General project design guidelines: https://ipac.ecosphere.fws.gov/project/TFPMM5PNHRAODIMAC3EQD2S6AQ/documents/generated/9456.pdf	Endangered

CRITICAL HABITATS

THERE ARE NO CRITICAL HABITATS WITHIN YOUR PROJECT AREA UNDER THIS OFFICE'S JURISDICTION.

YOU ARE STILL REQUIRED TO DETERMINE IF YOUR PROJECT(S) MAY HAVE EFFECTS ON ALL ABOVE LISTED SPECIES.

USFWS NATIONAL WILDLIFE REFUGE LANDS AND FISH HATCHERIES

Any activity proposed on lands managed by the [National Wildlife Refuge](#) system must undergo a 'Compatibility Determination' conducted by the Refuge. Please contact the individual Refuges to discuss any questions or concerns.

THERE ARE NO REFUGE LANDS OR FISH HATCHERIES WITHIN YOUR PROJECT AREA.

BALD & GOLDEN EAGLES

Bald and Golden Eagles are protected under the Bald and Golden Eagle Protection Act ² and the Migratory Bird Treaty Act (MBTA) ¹. Any person or organization who plans or conducts activities that may result in impacts to Bald or Golden Eagles, or their habitats, should follow

appropriate regulations and consider implementing appropriate avoidance and minimization measures, as described in the various links on this page.

1. The [Bald and Golden Eagle Protection Act](#) of 1940.
2. The [Migratory Birds Treaty Act](#) of 1918.
3. 50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)

There are Bald Eagles and/or Golden Eagles in your [project](#) area.

Measures for Proactively Minimizing Eagle Impacts

For information on how to best avoid and minimize disturbance to nesting bald eagles, please review the [National Bald Eagle Management Guidelines](#). You may employ the timing and activity-specific distance recommendations in this document when designing your project/activity to avoid and minimize eagle impacts. For bald eagle information specific to Alaska, please refer to [Bald Eagle Nesting and Sensitivity to Human Activity](#).

The FWS does not currently have guidelines for avoiding and minimizing disturbance to nesting Golden Eagles. For site-specific recommendations regarding nesting Golden Eagles, please consult with the appropriate Regional [Migratory Bird Office](#) or [Ecological Services Field Office](#).

If disturbance or take of eagles cannot be avoided, an [incidental take permit](#) may be available to authorize any take that results from, but is not the purpose of, an otherwise lawful activity. For assistance making this determination for Bald Eagles, visit the [Do I Need A Permit Tool](#). For assistance making this determination for golden eagles, please consult with the appropriate Regional [Migratory Bird Office](#) or [Ecological Services Field Office](#).

Ensure Your Eagle List is Accurate and Complete

If your project area is in a poorly surveyed area in IPaC, your list may not be complete and you may need to rely on other resources to determine what species may be present (e.g. your local FWS field office, state surveys, your own surveys). Please review the [Supplemental Information on Migratory Birds and Eagles](#), to help you properly interpret the report for your specified location, including determining if there is sufficient data to ensure your list is accurate.

For guidance on when to schedule activities or implement avoidance and minimization measures to reduce impacts to bald or golden eagles on your list, see the "Probability of Presence Summary" below to see when these bald or golden eagles are most likely to be present and breeding in your project area.

NAME	BREEDING SEASON
Bald Eagle <i>Haliaeetus leucocephalus</i> This is not a Bird of Conservation Concern (BCC) in this area, but warrants attention because of the Eagle Act or for potential susceptibilities in offshore areas from certain types of development or activities. https://ecos.fws.gov/ecp/species/1626	Breeds Sep 1 to Jul 31

PROBABILITY OF PRESENCE SUMMARY

The graphs below provide our best understanding of when birds of concern are most likely to be present in your project area. This information can be used to tailor and schedule your project activities to avoid or minimize impacts to birds. Please make sure you read "[Supplemental Information on Migratory Birds and Eagles](#)", specifically the FAQ section titled "Proper Interpretation and Use of Your Migratory Bird Report" before using or attempting to interpret this report.

Probability of Presence (■)

Green bars; the bird's relative probability of presence in the 10km grid cell(s) your project overlaps during that week of the year.

Breeding Season (■)

Yellow bars; liberal estimate of the timeframe inside which the bird breeds across its entire range.

Survey Effort (|)

Vertical black lines; the number of surveys performed for that species in the 10km grid cell(s) your project area overlaps.

No Data (—)

A week is marked as having no data if there were no survey events for that week.

Additional information can be found using the following links:

- Eagle Management <https://www.fws.gov/program/eagle-management>
- Measures for avoiding and minimizing impacts to birds <https://www.fws.gov/library/collections/avoiding-and-minimizing-incident-take-migratory-birds>
- Nationwide avoidance and minimization measures for birds <https://www.fws.gov/sites/default/files/documents/nationwide-standard-conservation-measures.pdf>
- Supplemental Information for Migratory Birds and Eagles in IPaC <https://www.fws.gov/media/supplemental-information-migratory-birds-and-bald-and-golden-eagles-may-occur-project-action>

MIGRATORY BIRDS

The Migratory Bird Treaty Act (MBTA) ¹ prohibits the take (including killing, capturing, selling, trading, and transport) of protected migratory bird species without prior authorization by the Department of Interior U.S. Fish and Wildlife Service (Service).

1. The [Migratory Birds Treaty Act](#) of 1918.
2. The [Bald and Golden Eagle Protection Act](#) of 1940.
3. 50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)

For guidance on when to schedule activities or implement avoidance and minimization measures to reduce impacts to migratory birds on your list, see the "Probability of Presence Summary" below to see when these birds are most likely to be present and breeding in your project area.

NAME	BREEDING SEASON
American Golden-Plover <i>Pluvialis dominica</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/10561	Breeds elsewhere
American Kestrel <i>Falco sparverius paulus</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9587	Breeds Apr 1 to Aug 31
Bachman's Sparrow <i>Peucaea aestivalis</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/6177	Breeds May 1 to Sep 30
Bald Eagle <i>Haliaeetus leucocephalus</i> This is not a Bird of Conservation Concern (BCC) in this area, but warrants attention because of the Eagle Act or for potential susceptibilities in offshore areas from certain types of development or activities. https://ecos.fws.gov/ecp/species/1626	Breeds Sep 1 to Jul 31
Black-billed Cuckoo <i>Coccyzus erythrophthalmus</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9399	Breeds May 15 to Oct 10
Bobolink <i>Dolichonyx oryzivorus</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9454	Breeds May 20 to Jul 31

NAME	BREEDING SEASON
Brown-headed Nuthatch <i>Sitta pusilla</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9427	Breeds Mar 1 to Jul 15
Cerulean Warbler <i>Setophaga cerulea</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/2974	Breeds Apr 23 to Jul 20
Chimney Swift <i>Chaetura pelagica</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9406	Breeds Mar 15 to Aug 25
Chuck-will's-widow <i>Antrostomus carolinensis</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9604	Breeds May 10 to Jul 10
Eastern Whip-poor-will <i>Antrostomus vociferus</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/10678	Breeds May 1 to Aug 20
Field Sparrow <i>Spizella pusilla</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9446	Breeds Mar 1 to Aug 15
Grasshopper Sparrow <i>Ammodramus savannarum perpallidus</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/8329	Breeds Jun 1 to Aug 20
Henslow's Sparrow <i>Centronyx henslowii</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/3941	Breeds May 1 to Aug 31
Kentucky Warbler <i>Geothlypis formosa</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9443	Breeds Apr 20 to Aug 20
Le Conte's Sparrow <i>Ammospiza leconteii</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9469	Breeds elsewhere

NAME	BREEDING SEASON
Least Tern <i>Sternula antillarum antillarum</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/11919	Breeds Apr 25 to Sep 5
Lesser Yellowlegs <i>Tringa flavipes</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9679	Breeds elsewhere
Little Blue Heron <i>Egretta caerulea</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9477	Breeds Mar 10 to Oct 15
Pectoral Sandpiper <i>Calidris melanotos</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9561	Breeds elsewhere
Prairie Warbler <i>Setophaga discolor</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9513	Breeds May 1 to Jul 31
Prothonotary Warbler <i>Protonotaria citrea</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9439	Breeds Apr 1 to Jul 31
Red-headed Woodpecker <i>Melanerpes erythrocephalus</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9398	Breeds May 10 to Sep 10
Rusty Blackbird <i>Euphagus carolinus</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9478	Breeds elsewhere
Semipalmated Sandpiper <i>Calidris pusilla</i> This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9603	Breeds elsewhere
Wood Thrush <i>Hylocichla mustelina</i> This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9431	Breeds May 10 to Aug 31

WETLANDS

Impacts to [NWI wetlands](#) and other aquatic habitats may be subject to regulation under Section 404 of the Clean Water Act, or other State/Federal statutes.

For more information please contact the Regulatory Program of the local [U.S. Army Corps of Engineers District](#).

Please note that the NWI data being shown may be out of date. We are currently working to update our NWI data set. We recommend you verify these results with a site visit to determine the actual extent of wetlands on site.
