## Introduction

The purpose of the Arkansas Public Transportation Directory is to educate both users and non-users of public and private transportation with information about publicly and privately owned public transit, paratransit passenger carriers and metropolitan planning organizations as well as commuter services and other for-hire services, and their geographic distribution throughout the State. Every effort was made to include all providers.

Arkansas' first transit program got its start as a privately owned operation in Pine Bluff in 1870 followed by a system in Little Rock in the 1880's. The City of Eureka Springs started the first publicly owned transit system in 1891 but was discontinued in the 1920's. Modern public transit systems began to emerge in the 1970's, largely with the signing of the Urban Mass Transportation Act (UMTA) of 1964 by authorizing transit programs and providing Federal funding assistance for transit equipment, facilities, and operations. Arkansas, more specifically Metroplan, received its first Federal Transit Administration (FTA) funds in September 1965 - \$383,000 for 42 buses.

The Arkansas Department of Transportation (ARDOT) became actively involved in transit programs with the passage of Arkansas Act 192 of 1977. This Act gave the Department responsibilities for administering public transportation programs in Arkansas. From this Act, the Department became involved with the Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities and the Section 5311: Rural Areas Public Transportation programs. During the late 1970's and early 1980's, the Department established seven rural transit systems and funded vehicles for non-profit human service agencies providing transportation service to seniors and the disabled. Today there are seven urbanized and ten rural public transit systems providing service in Arkansas. In addition, approximately 150 human service agencies receive funds through the Department to support transportation services to seniors, individuals with disabilities, and persons seeking employment opportunities.

### **Notice of Nondiscrimination:**

The Arkansas Department of Transportation (ARDOT) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, ARDOT does not discriminate on the basis of race, sex, color, age, national origin, religion (not applicable as a protected group under the FMCSA Title VI Program), or disability in the admission, access to and treatment in ARDOT's programs and activities, as well as ARDOT's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding ARDOT's nondiscrimination policies may be directed to the Civil Rights Division at P.O. Box 2261, Little Rock, AR 72203, (501) 569-2298, (Voice/TTY 711); or [Civil.Rights@ardot.gov](mailto:Civil.Rights@ardot.gov).

# Arkansas Transit Association

The Arkansas Transit Association (ATA) was incorporated in 1980 as a 501(c)(3) non-profit trade association to provide technical assistance and training for Arkansas's public transit systems. From the beginning, ATA has partnered with the Arkansas Department of Transportation (Department) to advance safe passenger transportation.

Today, ATA has nearly 250 members, including seven urban and ten rural transit agencies, community services organizations transporting seniors, people with developmental disabilities, private passenger carriers, state agencies and industry vendors.

ATA's offices are located in the Arkansas Public Transit Safety and Resource Center in North Little Rock. Built in 2002 with federal and state funding assistance, this award-winning training facility hosts a wide variety of transportation meetings, workshops, and seminars

The Association's nationally-recognized Training Program specializes in passenger transportation safety, and a variety of low-cost courses are conveniently offered to ATA members. Courses are adapted to each agency's specific needs, and great care is taken to deliver updated and relevant material. A current list of training topics can be found on the Association's website.

ATA co-sponsors an Annual Public Transportation Conference with the Department and the Federal Transit Administration (FTA). This popular event provides timely and informative programs, offers opportunities for networking, and showcases vendors' products and services.

In addition, ATA administers three Drug and Alcohol Testing Program Consortiums for employee testing and helps with policy development, training, and legal compliance. Although tests required by the Federal Transit Administration, the Federal Motor Carrier Safety Administration, and those not regulated by the Department of Transportation are conducted separately, the consortium group purchases result in lower costs and superior customer service.

Other association benefits include a Workers' Compensation Self-Insured Trust Fund and free traffic violation reports for public transit and non-profit members.

For forty-five years, ATA has served its members, proudly advocating for recognition of their hard work and dedication to increasing the quality of community transportation in Arkansas.

## Program Information

The Arkansas Department of Transportation (ARDOT) is appointed as the “designated recipient” of Federal Transit Administration (FTA) funds by the Governor of Arkansas. The Public Transportation Programs Section (PTPS) of the Department’s Local Programs Division is responsible for the programming and administration of federal and state transit programs. The program categories are as follows:

**Section 5305 – Consolidated Planning Program (5303/5304 Metropolitan and Statewide Planning):** This program provides funding for multimodal transportation planning in metropolitan areas and states that are cooperative, continuous, and comprehensive, resulting in long-range plans and short-range programs of transportation investment priorities. Planning funds from the Federal Highway Administration and the Federal Transit Administration are combined into a single consolidated annual application and allocated to the urbanized areas. There are currently seven urbanized areas in Arkansas eligible for assistance: Little Rock/North Little Rock/Conway, Jonesboro, Fort Smith, Texarkana, Hot Springs, Fayetteville/Springdale/Rogers, and West Memphis.

**Section 5307 – Urbanized Area Program:** This program provides capital and operating assistance to areas with populations over 50,000 persons. These funds are for transit systems that are open to the public and may support fixed route and demand response systems. There are currently seven urbanized transit systems in Arkansas: Rock Region METRO, Little Rock; Fort Smith Public Transit, Fort Smith; Hot Springs Intracity Transit, Hot Springs; Jonesboro Economical Transportation, Jonesboro; Ozark Regional Transit Authority (ORT), Springdale; Razorback Transit, Fayetteville. Texarkana Urban Transit District receives funds allocated for Arkansas through the Texas Department of Transportation. These agencies apply for funds directly to FTA and not through ARDOT.

**Section 5310 – Enhanced Mobility for Seniors and Individuals with Disabilities:** This program provides funding to States for the purpose of assisting private non-profit groups and in some cases units of government in meeting the transportation needs of seniors and persons with disabilities. Funds are provided for capital assistance (purchase of rolling stock, vans, and buses). Eligible sub-recipients are private non-profit organizations, governmental authorities where no non-profit organizations are available to provide service and governmental authorities approved to coordinate services.

Requirements also include that a project selected be derived from a locally developed, coordinated public transit-human services transportation plan. Annual Application - Capital match is 80% Federal and 20% local.

**Section 5311 – Rural Areas Formula Program:** This program provides funding for the purpose of supporting public transportation in rural areas with a population of less than 50,000. These funds are available for planning, administration, capital and operating for public service and may support fixed or demand response routes. Eligible sub-recipients are private non-profit organizations, State or local governments, and operators of public transportation services or intercity bus services that receive federal transit funds indirectly through a recipient.

There are currently 10 rural transit systems in Arkansas: Black River Area Development (BRAD), Pocahontas; Central Arkansas Development Council (CADC/SCAT) Benton; Eureka Springs Transit, Eureka Springs; Mid-Delta Transit, Helena-West Helena; North Arkansas Transportation Services (NATS), Harrison; North East Arkansas Transit (NEAT), Jonesboro; Ozark Regional Transit Authority (ORT), Springdale; Southeast Arkansas Transit (SEAT), Pine Bluff; Pine Bluff Transit and Western Transit System (WTS), Fort Smith. Year-round Application: Planning, Administration and Capital 80% Federal and 20% local - Operating 50% Federal

and 50% local. The Department also manages Transit Asset Management (TAM), which is funded under this program.

**Section 5329 – State Safety Oversight Formula Program:** This FTA program is a mandate requiring the State to provide safety and security oversight on transit passenger rail systems. This program provides funding to state safety oversight agencies, the Department, to update the State Safety Oversight (SSO) program to ensure that rail transit systems are meeting basic, common-sense safety requirements. The law also includes important new safety provisions for bus-only operators and a transit safety plan by all public transit agencies.

**Section 5339 – Bus and Bus Facilities Formula Program:** This program provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. Funds are available to all Section 5307 and 5311 agencies based on a Congressional formula. Large Urban and Small Urban Transit Systems apply for funds directly to FTA and not through ARDOT.

**Section 5337 – The State of Good Repair (SGR) Program:** This federal program provides capital assistance for maintenance, replacement, and rehabilitation projects of high-intensity fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair. Additionally, SGR grants are eligible for developing and implementing Transit Asset Management (TAM) plans.

**TransLease Program:** This is Arkansas' state program that provides state funding for public and non-profit qualifying 5310 and 5311 agencies to lease vehicles paying the full state contract rate monthly for up to four years with no interest. Eligible agencies are those that would normally be eligible for assistance under another federal transit program (5310,5311) but have additional needs above existing funding levels. Applications are available on a year-round basis.

| <b>MPO</b>                      | Metropolitan Planning Organization. An organization of primarily local elected officials and representatives from public transportation agencies who provide a forum for local decision-making on transportation issues in urbanized planning areas       |
| <b>Operating Cost</b>           | The recurring costs of providing transit service, i.e., wages, salaries, fuel, oil, taxes, maintenance, depreciation, insurance, marketing, etc.                                                                                                          |
| <b>Paratransit</b>              | One of several forms of small capacity passenger transportation including taxis, carpools, specialized vans, Dial-A-Ride, and shared ride                                                                                                                 |
| <b>Park-and-Ride</b>            | A type of transportation where a single occupant (usually) drives to a designated point by private auto and transfers to a public mode of transportation such as bus, rail, vanpool, carpool, etc. for the remainder of the trip                          |
| <b>Passenger</b>                | A person (excluding the driver or crew members) who rides a public transportation vehicle                                                                                                                                                                 |
| <b>Passenger Miles</b>          | The total number of passengers carried by a transit system multiplied by the number of miles traveled                                                                                                                                                     |
| <b>Passenger Trip</b>           | One person making a one-way trip from origin to destination. One round trip equals two passenger trips                                                                                                                                                    |
| <b>Public Transportation</b>    | Transportation by a conveyance that provides regular, continuing shared-ride surface transportation services that are open to the public or open to a segment of the public defined by age, disability, or low income                                     |
| <b>Ride-sharing</b>             | A transportation service which includes carpooling, vanpooling, bus pooling and transit                                                                                                                                                                   |
| <b>Transit System</b>           | The facilities, equipment, personnel, and procedures needed to provide and maintain public transportation service                                                                                                                                         |
| <b>Transportation</b>           | Movement of people or goods from one place to another by public or private means                                                                                                                                                                          |
| <b>Urban</b>                    | The term used to describe cities. The size of those areas is differentiated by calling cities of more than 50,000 population "urbanized areas" and those of 5,000 – 50,000, "rural areas"                                                                 |
| <b>Van</b>                      | A vehicle having a typical seating capacity of 8 to 18 passengers including a driver. A van is typically taller and with a higher floor than a passenger car, such as a hatchback or station wagon. Vans normally cannot accommodate standing passengers. |

**Sunday – Friday** 10:00 AM – 6:00 PM

**Service Area:** City of Eureka Springs, Benton, Carroll, western Madison, and Washington Counties

Tucked away in the hills of Northwest Arkansas, Eureka Springs truly is America's Victorian Village. In 1970 the city was added to the National Register of Historic Places. The District now has over 33 Significant and 250 Contributing Structures located within its boundaries, it is the heart and soul of Eureka Springs.

Much of the Historic District as well as the rest of Eureka Springs can be visited in comfort and with convenience using the City's Transit System. Operating year- round, we have our vintage-looking trolleys and mini-busses that carry passengers over routes that crisscross the city in every direction. Each route is color coded, making getting around our winding, twisting and narrow streets almost foolproof. Eureka first used public transportation in the 1890's and now in the 2000's we still are.

The City of Pine Bluff has had a transit system since 1870, making it the oldest transit system in the state of Arkansas. In 1974, Pine Bluff Transit became a city owned and operated transit system. The system consists of eight fixed routes and an American with Disabilities Act of 1990 (ADA) paratransit service. The main goal of the Pine Bluff Transit Department is to provide safe, dependable, and economical transportation to those citizens dependent on public transportation to maintain or improve their quality of life. Pine Bluff Transit riders enjoy access to community services, places of employment, shopping and recreation venues, and educational facilities. Pine Bluff Transit currently services all areas of the city.

**Full Service** – Arkansas, Ashley, Bradley, Chicot, Cleveland, Desha, Drew, Grant, Jefferson, Lincoln

**Limited Service** – Calhoun, Dallas, Lonoke (South of I-40), and Union Counties

Southeast Arkansas Transportation (SEAT) began in April 1993 with just three vans, three drivers, and a handwritten manifest that barely filled a page per vehicle. Today, SEAT averages more than 960 one-way trips daily and employs 136 people—102 of whom are trained professional drivers operating 140 vans, including 125 that are ADA-accessible.

SEAT has been recognized for excellence in rural public transportation, earning the 2008 Rural Community Transportation System of the Year award from the Community Transportation Association of America (CTAA) and the 2024 Outstanding 5311 Agency of the Year honor from the Arkansas Department of Transportation.

Providing demand-response rural public transportation across 14 counties in Southeast Arkansas, SEAT serves citizens of all ages. Riders may schedule trips within their local community or anywhere within SEAT's service area, with return service included. Limited round-trip service is also available into Mississippi and Louisiana. To ensure comprehensive statewide coverage, SEAT coordinates with other transit providers as needed.

## Western Transit System (WTS)

**Address:**

3600 Wheeler Avenue, Suite 2  
Fort Smith, AR 72901

**Primary Contact:** Kyle Stiles, Transportation Director

**Phone:** 479-337-7809

**Fax:** N/A

**E-mail:** [kstiles@agingwest.org](mailto:kstiles@agingwest.org)

**Website:** [www.agingwest.org/transportation](http://www.agingwest.org/transportation)

### **Days and Hours of Operation:**

#### **Monday – Friday**

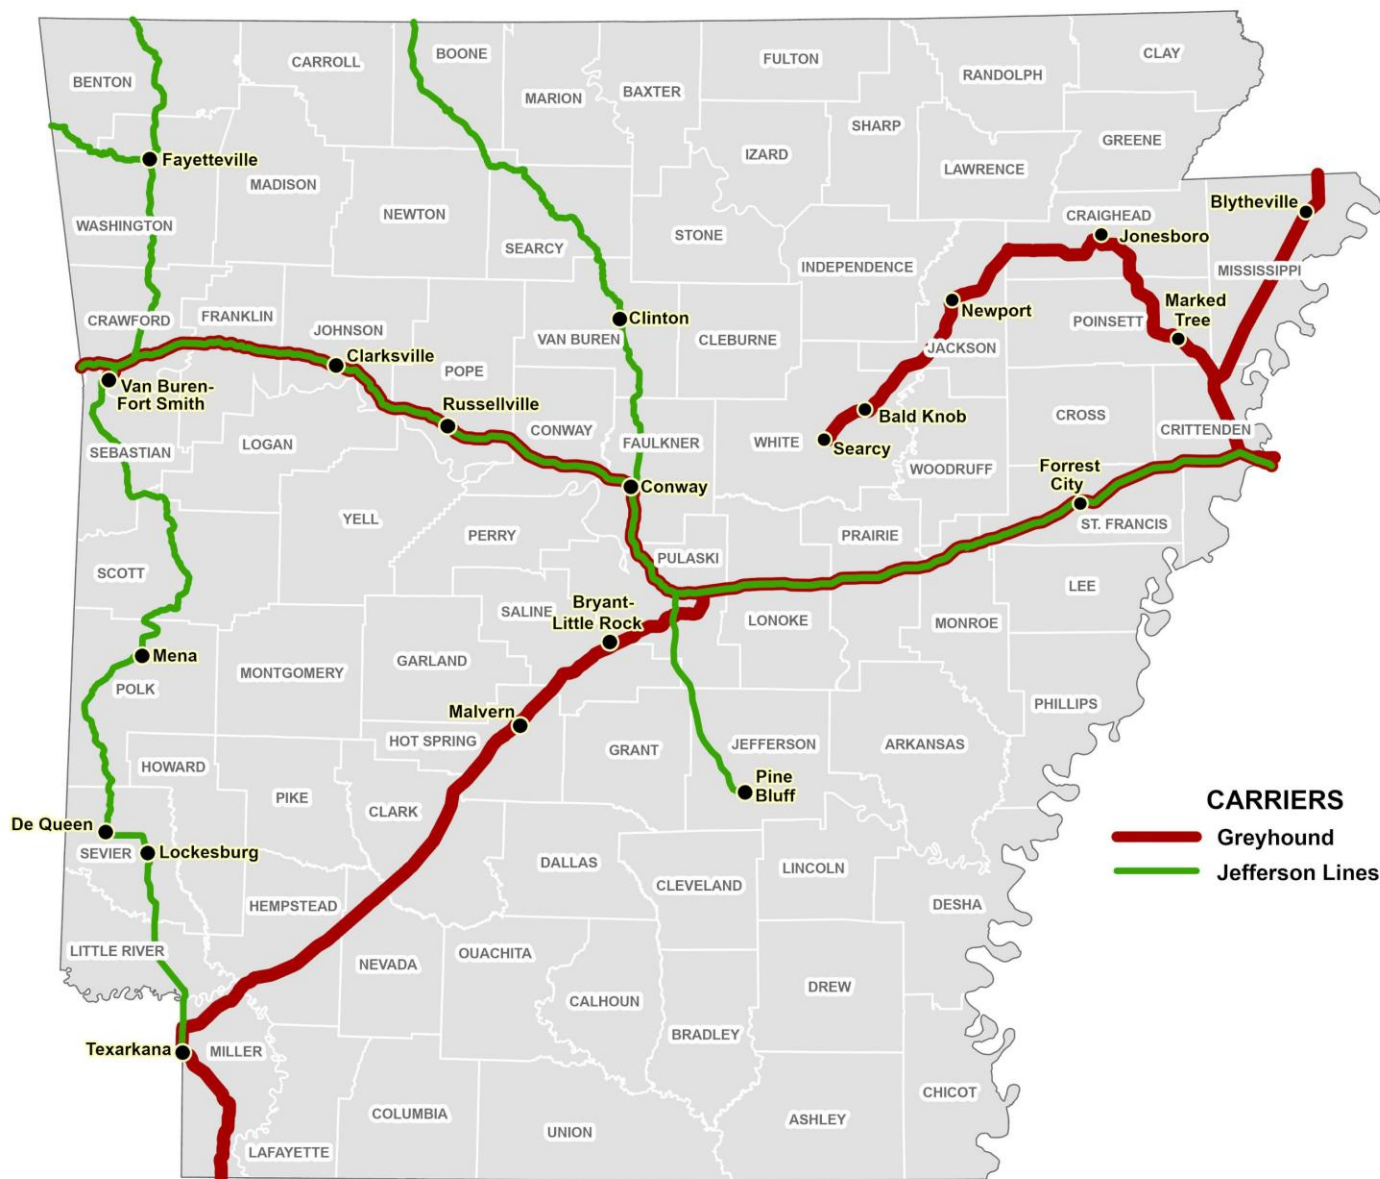

Hours vary, call for schedule.

**Service Area:** Conway, Crawford, Franklin, Johnson, Logan, Perry, Polk, Pope, Scott, and Sebastian and Yell Counties.

Western Transit System (WTS) initiated public transportation service in 2011. Sponsored by the Area Agency on Aging of Western Arkansas, Inc., WTS recognized the transportation needs of all rural residents in its service area. This program offers mobility and connects the citizens of these very rural, economically depressed regions with various kinds of services including medical, social, nutritional, and recreational as well as shopping, bill paying, and employment opportunities.

By expanding its mission from services to seniors, WTS will improve access to transportation in rural areas to all citizens which will in turn make it possible for opportunities to seek employment, shopping and medical and personal services.

## Intercity Bus Transportation Service

The Intercity Bus Program: Section 5311(f), allows funding to private for-profit agencies providing intercity transit service in Arkansas.

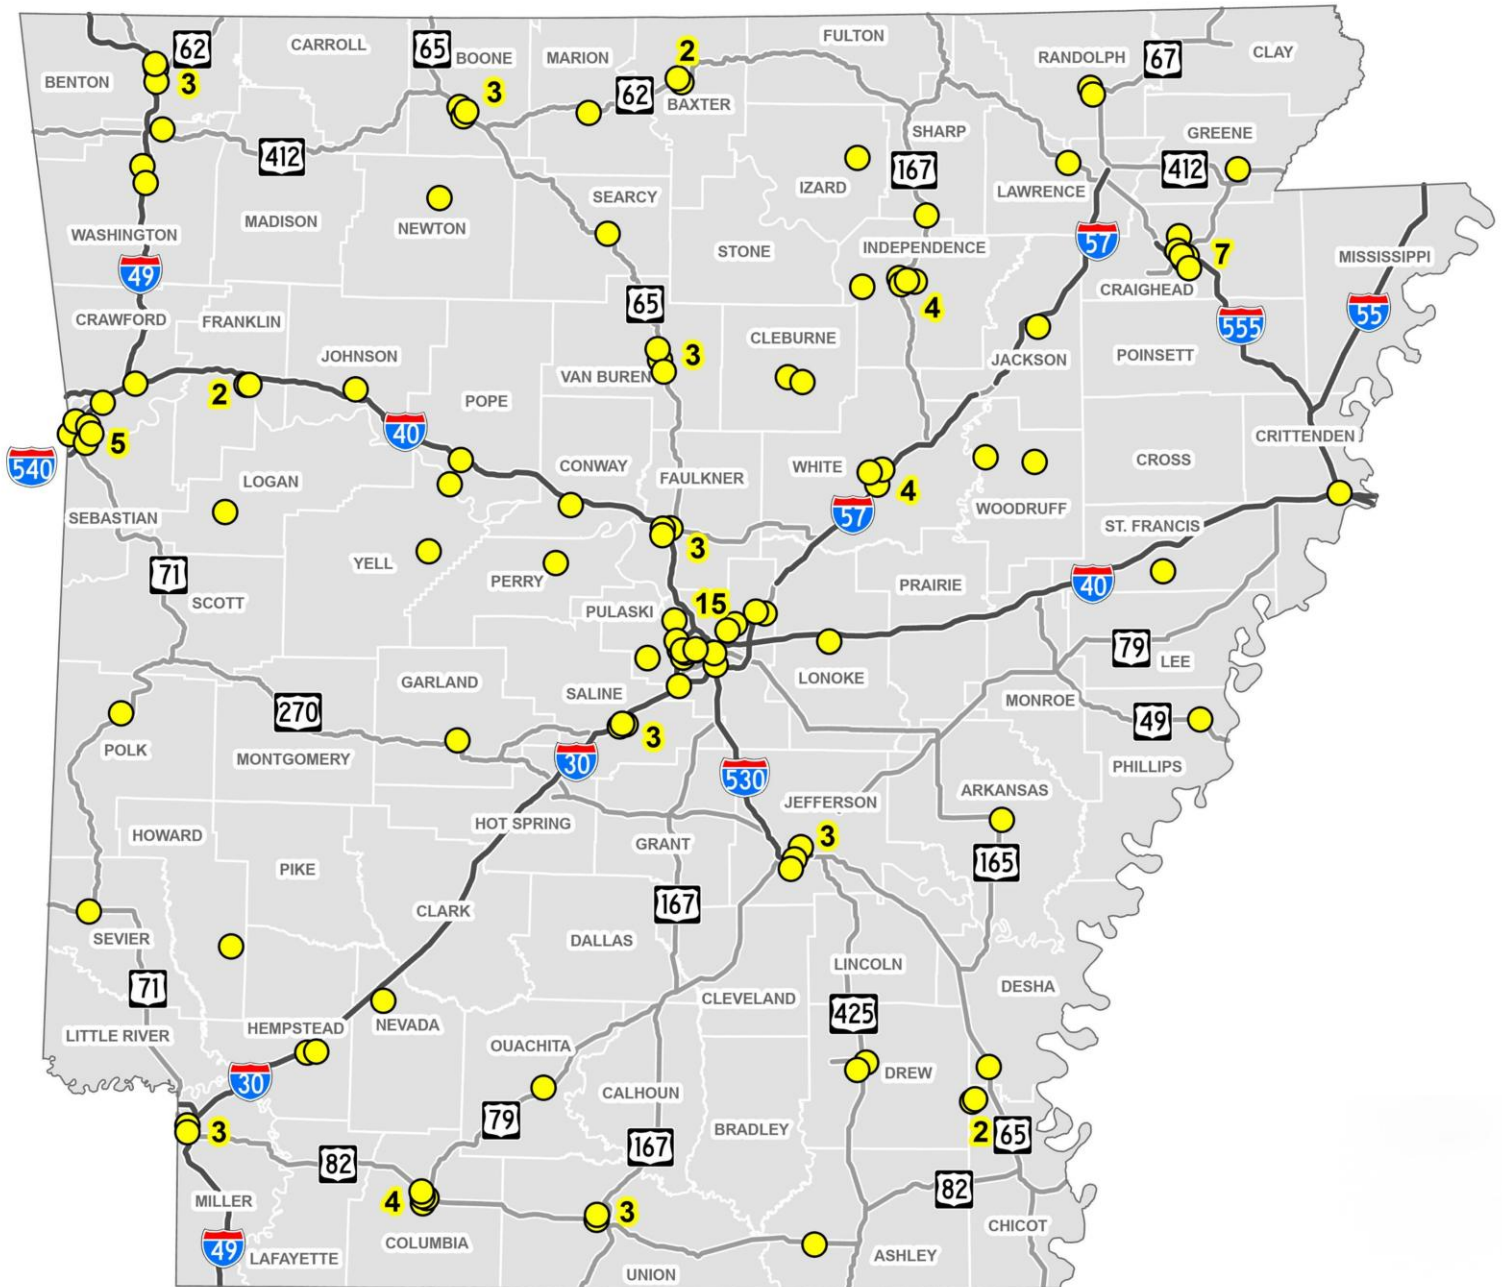

Currently Greyhound and Jefferson Lines provide interstate transportation to support the connection between rural areas and the larger regional or national transportation systems.

Greyhound's service between Little Rock and Memphis, via the intermediate points of Searcy, Bald Knob, Newport, Jonesboro and Marked Tree.

Jefferson Lines recently added a connecting route that serves Fayetteville, Rogers, Eureka Springs, Berryville, Green Forest and Harrison.

In addition, South Central Arkansas Transit rural public transit systems provide intrastate connector service to the intercity bus carriers and has a route to El Dorado to serve the rural needs in South Central Arkansas.

## Metropolitan Planning Organizations

## Metropolitan Planning Organizations (MPOs)

In 1973, the Federal Transportation Act required that each urbanized area (area with 50,000 or more population) establish a Metropolitan Planning Organization (MPO). An MPO is an organization of primarily local elected officials and representatives from public transportation agencies who provide a forum for local decision-making on transportation issues of a regional nature.

Under Section 5305, MPOs receive funds to support the cooperative, continuous and comprehensive planning program for making transportation investment decisions in MPO areas. Funds are apportioned by a formula to States that includes each State's urbanized area population in proportion to the urbanized area population for the entire Nation. These funds, in turn, are sub-allocated by States to MPOs by a formula that considers each MPO's urbanized area population.

The U.S. Department of Transportation (USDOT) – Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) are joint participating federal agencies. The MPOs in Arkansas funded under Section 5305 are located in the following areas:

| <b>MPO</b>                                                     | <b>Population*</b> | <b>MPO City</b> | <b>MPO County(ies)</b>               |
