

Arkansas Board of Apportionment
The Honorable Betty C. Dickey, Coordinator

March 31, 2022

NOTICE

It has come to the attention of the Board of Apportionment that the Arkansas Senate Map uploaded on the Board's website did not reflect one of the final technical changes to the Arkansas Senate Plan adopted by the Board at the recommendation of the Arkansas Geographic Systems Office (GIS).

The Final Plans adopted at the Board's November 29, 2021, meeting and filed with the Arkansas Secretary of State reflect the technical change in question. Consequently, the General Assembly districts that will be on the ballot reflect the technical change. However, it appears the following change was not reflected in the visual maps that were uploaded on the website at the time the Plan was adopted.

This area does not affect candidates for elected office. The district boundary in the area in question was moved from Blue Mountain Road to the school district boundary to synchronize the Arkansas House Plan and the Arkansas Senate Plan with one another and with the Prairie Grove/Lincoln School District boundary. This change affects the boundary of Senate Districts 29 and 35. A visual representation of the technical change has been enclosed.

As stated previously, this change was adopted by the Board of Apportionment at its November 29, 2021, meeting when it approved its Plans for the Arkansas General Assembly. The Board apologizes for the confusion, and has uploaded maps reflecting this change on its website.

Sincerely,

A handwritten signature in black ink that reads "Betty C. Dickey".

The Honorable Betty C. Dickey

Revised Senate Districts 29 and 35
